

ALLIANCE ENDS BIG LOYALTY CONFERENCE

Elects Samuel Gompers as Its Leader and Adopts Declaration of Principle

TO EXTEND AID TO RUSSIA

MINNEAPOLIS, Sept. 7.—The American alliance for labor and Democracy, organized three weeks ago with President Wilson's stamp of approval, concluded its big loyalty conference here tonight with the election of officers and adoption of a declaration of principles.

Elects Gompers Leader
The alliance, composed of the nation's labor leaders and having as its double purpose the crushing of disloyalty and the solidifying of labor in the war for Democracy, elected as its leader Samuel Gompers, president of the American Federation of Labor, and an ex-cubist of applause. "I am profoundly responsive to the honor and opportunity," he said, "feeling my whole life has been consecrated to service to my fellow men. I have no aspirations for anything on earth or above, other than to continue this service." A committee was appointed to extend aid and encouragement to new Russia. It is composed of Samuel Gompers, F. P. Walsh, John Spargo, former member of the executive committee of the Socialist party, and James Duncanson and Charles Edward Russell the latter two members of the American mission to Russia.

"I am unable to say now whether the committee will go to Russia," said Mr. Gompers.

Special Leaves for East
"The red, white and blue" special departed for the east shortly after midnight following a big mass meeting. Literature will be distributed along the way urging immediate establishment of such alliance bureau in every town and hamlet in the country.

"It is a big movement," was the parting word of delegates. "In ninety days American labor will have crushed the disloyalists and will have a clear field in its noble battle for humanity."

The preamble to the declaration of principles adopted tonight said:
Preamble of Declaration
"The American alliance for labor and Democracy in its first national conference declares its unwavering adherence to the cause of Democracy now assailed by the forces of autocracy and militarism, social reformers and socialists we pledge our loyal support and service to the United States government and its allies in the present world conflict. We declare that the one overshadowing issue is the preservation of Democracy. Either Democracy will endure and men will be free or autocracy will triumph and the race will be enslaved. On this prime issue we take our stand. We declare that the great war must be fought to a decisive result; that until autocracy is defeated there can be no hope of an honorable peace, and that to compromise is only to sow the seed for bloodier and more devastating wars in the future."

"We declare our abhorrence of war and our devotion to the cause of peace. But we recognize that there are evils greater and more intolerable than those of war. We declare that war waged for evil ends must be met by war waged for altruistic ends. A peace bought by the surrender of every principle vital to democracy is no peace, but shameful servility. Our nation has not sought this war."

"We declare that in this crisis the one fundamental need is unity of action. The successful prosecution of the war requires that all the energies of all our people be concentrated to a common purpose."

Outstanding Provisions
The outstanding provisions in the declaration of principles include:
Suppression of disloyalists and pro-German propagandists.
Solidification of labor behind the government.
Conscription of wealth as well as of men.
Heavy taxes on incomes, excess profits and land values.
Government control of industries in case of labor disputes.
Action against speculative interests which enhance prices of necessities of life.
Insurance for soldiers and sailors.
Equal suffrage.
Endorsement of President Wilson's decision not to permit the war to be made an excuse for lowering labor standards.
Declaration that wage earners must have a voice in determining conditions under which they give service must be represented in councils conducting the war and at peace negotiations.

Addresses Reply to Wilson
Mr. Gompers tonight addressed a reply to President Wilson's letter of August 31 praising the alliance for the work it had undertaken and predicting complete success. After thanking the president, Mr. Gompers' letter said:
"Our purpose is to enable all to understand America's concept of human rights and freedom; and thru

TENTATIVELY DISPOSE OF INCOME TAX SECTIONS

Senate Again Defeats Attempts At Higher Taxation

Provisions Cause Another Bitter Outburst Over American Unity In Prosecuting the War—Stormy Scene Overshadows Interest in Section.

Washington, Sept. 7.—In the midst of another bitter outburst over American unity in prosecuting the war, the senate late today tentatively disposed of the income tax provisions of the war tax bill and again defeated all attempts at higher taxation.

Hardwick Criticized Vigorously
Interest in virtual adoption of the income tax section, designed to raise \$842,000,000 more revenue from individual and corporate incomes was overshadowed by a stormy three hours scene in which Senator Hardwick of Georgia, was subjected to vigorous criticism by Senator Nelson (Republican) and Senator Chamberlain and Williams (Democrats). The incident hardly has been equalled in the senate since passage of the army draft law. An amendment by Senator Hardwick to increase taxes on large incomes in order to pay a \$50 monthly bonus to all Americans serving in France stirred up the senate's temper. It was promptly voted down, 74 to 5, having the support only of Senators Gronna, Hardwick, LaFollette, Reed and Vardaman—all of the group which opposed the draft act. But before and long after its disposition and with scant attention toward approval of the big income levy the senate was engaged in the war of words it provoked. Senator LaFollette had offered the amendment yesterday for Senator Hardwick who was absent. When the Georgia senator today urged its adoption as a conscription of wealth to pay soldiers conscripted, he was assailed by Senator Nelson, a Civil War veteran, who denounced the amendment as "humiliating and belittling" to the American soldier.

"Our boys are not as cheap as some statesmen," the Minnesota senator shouted.

Senator Chamberlain, chairman of the military committee with evident feeling cited Senator Hardwick's attitude toward the draft law and declared the amendment tended toward demoralization of the army and further resistance of the law.

Claims Right of Free Speech
In reply Senator Hardwick claimed the right of free speech, defended his course in opposition to the administration and attacked what he called the flamboyant patriotism of his critics.

Senator Williams criticized the Georgia senator's past and present attitude toward the draft law and ridiculed his speech.

"I take it that very few senators, probably not over five," said Senator Williams, "will not agree that we have seldom witnessed a finer case of self-inflation and puffing up acting than that which has just been shown upon this arena."

Senator Reed interrupted with an appeal to the chair to rule the language out of order, but Senator Robinson, presiding, decided it had not transgressed senate rules.

With disposal of the hotly contested income tax section today the senate tomorrow will proceed with minor points of dispute pending. Senators Simmons expressed slight hope of passing the bill before adjournment tomorrow, but thought it more probable that it would be delayed until Monday.

THREE FIRMS APPLY FOR INCORPORATION
SPRINGFIELD, Ill., Sept. 7.—Applications for incorporation papers were filed here today with the secretary of state by the following concerns:
Vermilion Heights Coal company, Danville; capital stock \$10,000.
Incorporators, W. C. Kinslingham, William Wood and A. W. Koseber.
Indiana-Moline Plow company, Moline; capital stock \$50,000.
Incorporators, C. R. Stephens, J. L. Irving and L. C. Blanding.
Leader House Furnishing company, East St. Louis; capital stock \$10,000.
Incorporators, H. J. Jaeger, R. S. Slack and T. E. Gayeski.

MAY TAKE TWO DAYS TO COMPLETE JURY
RED OAK, Iowa, Sept. 7.—When adjournment until Monday morning was taken late today in the murder trial of Rev. Lynn George J. Kelly, indicted in connection with the Villisca, Ia., axe murders of 1912, it seemed to be the opinion of counsel that two more days would be required to complete the jury. Seventeen jurors have been passed for cause. Each side has ten preemptory challenges.

An unsuccessful attempt was made late today by friends of Kelly to obtain his release on \$50,000 bond, signers of which included three close relatives of the axe victims, Joseph Stillinger, whose two daughters were killed; Mrs. C. C. Moore, mother of Joseph Moore, and John Montgomery, father of Mrs. Moore, two other victims slain with their children. Judge Bries said that bail for Kelly would not be admissible while the present charges against him stand.

PUTS OUT MORE PAPER
Copenhagen, Sept. 7.—The Imperial Bank of Germany in the past week has been compelled to put out 359,000,000 marks more paper money, bringing up to 9,300,000,000 marks, to more than 2,200,000,000 above the amount outstanding at the same date last year. The gold revenue of 2,400,000,000 marks, on the other hand is now 66,000,000 marks below last year.

COMPANY FILES SUIT AGAINST CUMMINGS

CHICAGO, Sept. 7.—Suits were filed in the United States district court today by the Commonwealth Trust company against John J. Cummings, head of a street car appliance plant at Plano, Ill., charging him with dereliction in duty as member of the bond holders' committee of the Alton, Jacksonville & Peoria railway company and asking an accounting of approximately \$500,000.

The suit is brought in behalf of the other members of the bond holders' committee, W. C. Fordyce, Geo. L. Edwards, J. C. Van Riper of St. Louis, and C. A. Caldwell of Alton, Ill.

Cummings was head of the bond holders' committee when the railway was thrown into bankruptcy in Indiana three years ago. Later he resigned from the committee and then, it is charged, instead of carrying out a contract made with the other members to get sufficient capital to rehabilitate the road, he, with the American Trust company of St. Louis secured control of the railway.

MARSHALS RETURN FROM HUNT OF PRO-GERMANS

Officials Make Several Arrests On Trip Thru Iowa

Number of Speeches Calculated to Restrain Anti-War Demonstrations Are Made in Each Town—To Continue Efforts Despite Warnings.

Cedar Rapids, Ia., Sept. 7.—United States Marshal E. R. Moore and Deputy Marshal Michael Healy returned this morning from a hunt for pro-Germans which carried them to Kelsey, Parkersburg, Luverne and Wellsburg. Several arrests were made on the trip and a number of speeches calculated to restrain anti-war demonstrations were made in each town.

Receive Anonymous Letters.
While in Parkersburg the marshals received anonymous letters supposed to have been sent by pro-Germans in Kelsey, stating that they would be assassinated if they proceeded to Kelsey. The marshals left Parkersburg for Kelsey at once but found the town almost deserted. They made a search for J. K. Schermann, one of the leaders of the peace alliance in the state who was scheduled to make a speech in Kelsey that evening, but he could not be located. They found his brother, who claimed that the missing man was a loyal American. The marshals learned that Schermann had held several meetings in the vicinity.

At Luverne Marshal Healy found pictures of the Kaiser, German ministers and others in positions of prominence in Germany posted in conspicuous places. These were torn down and destroyed. The marshals also visited Wellsburg, a town which is said to be 95 per cent German. A speech in which Marshal Healy stated that "the Kaiser should be in hell" was received with much consternation but there was no demonstration.

Will Continue Efforts.
Marshal Healy stated today that despite the fact that he has had numerous warnings to stop his campaign against the pro-Germans of the state, both by letter and from loyal citizens, he would continue his efforts until he had landed every wagging tongue behind bars.

Officials continue the search for three Austrians from Benton county who did not appear for examination before the exemption board.

ALLIED CAUSE DEPENDS ON SUPREMACY AT SEA
BIRKENHEAD, Eng., Sept. 7.—Premier Lloyd George in a speech here today on receiving the freedom of the city declared the allied cause and freedom of the world depended on supremacy at sea and he was certain it would be maintained. The premier asserted he was convinced the allies never could beat down the strength of the British empire or the hopes of the alliance by all the efforts they could make with the submarine.

"With the whole united strength of our people, we will win," the premier said, "but we shall only just win. It will need all our strength so don't let us throw it away. It is a mighty force that it has set itself to destroy this empire and it will take all our strength to beat it."

"America," Lloyd George said, "who has now come into the conflict has a long known defeat on this occasion too, she with her Allies will triumph over her foe."

"For all of these reasons I ask you to be of stout hearts. There may be stony paths to climb but we will climb them. Our footpaths may be stained with blood but we will reach the heights and then in front we will see the rich valleys and plains of the new world."

ROOT TO SPEAK IN CHICAGO
Chicago, Sept. 7.—Elliott Root will address a mass meeting of all patriotic and war organizations in Chicago within the next few days, probably on September 14, according to information made public today by H. H. Merrick, president of the local branch of the National Security League.

INDICT POLICEMAN
Houston, Texas, Sept. 7.—Lee Sparks, the policeman whose alleged assault on Sergeant Baltimore, a negro trooper of the twenty-fourth infantry is said to have preceded the riot of negro troops Aug. 23 in which eleven were killed and 22 wounded was indicted today by a grand jury on charges of aggravated assault and murder.

MALONE RESIGNS AS PORT COLLECTOR

Tells Wilson He Feels Obligated to Devote Himself to Redeem Promise

LETTER OF RESIGNATION

WASHINGTON, Sept. 7.—Dudley Field Malone, customs collector at New York, tendered his resignation to president Wilson today in protest against the failure of the president to advocate passage of the federal suffrage amendment and because he permitted the imprisonment of women who have been picketing the White House.

Mr. Malone, who as counsel defended the first of the militants arraigned in police court here, told the president in his letter of resignation, that inasmuch as he had promised the women of the suffrage states that he would exert all his energy to have the national Democratic administration endorse suffrage by constitutional amendment, he felt obliged to resign and devote himself to redeeming that promise.

In quitting the office of collector of the port of New York, Mr. Malone leaves one of the best paid places in the government service. He is a son-in-law of former Senator O'Gorman. His letter of resignation follows:

Letter of Resignation.

"Dear Mr. President:

"Last autumn, as the representative of your administration I went into the woman suffrage states to urge your re-election. The most difficult argument to meet among the seven million women voters was the failure of the Democratic party, thruout four years of power to pass the federal amendment looking toward the enfranchisement of all the women of the country."

"Thruout those states, and particularly in California which ultimately decided the election by the votes of women the women voters were urged to support you even though Judge Hughes had already declared for the federal suffrage amendment because you and your party, thru liberal leadership were more likely nationally to enfranchise the rest of the women of the country than were your opponents."

Denial of Constitutional Right.

"If the women of the west voted to re-elect you I promised them: I could spend all my energy, at any sacrifice to myself, to get the present Democratic administration to pass the federal suffrage amendment. But the present policy of the administration in permitting splendid American women to be sent to jail in Washington, not for carrying offensive banners nor for picketing, but on the technical charge of obstructing traffic, is a denial even of their constitutional right to petition for and demand the passage of the federal suffrage amendment. It therefore now becomes my profound obligation actively to keep my promise to the women of the west."

"In more than twenty states it is a practical impossibility to amend the state constitutions so the women of those states can only be enfranchised by passage of the federal suffrage amendment. Since England and Russia in the midst of the great war have assured the national enfranchisement of their women should we not be jealous to maintain our Democratic leadership in the world by speedy national enfranchisement of American women? To me Mr. President, as I urged upon you in Washington two months ago this is not only a measure of justice and Democracy, it is also an urgent war measure."

Women Loyal to Country.

"The women of the nation are, and always will be, loyal to the country and the passage of the suffrage amendment is only the first step towards their national emancipation. But unless the government takes at least this first step towards their enfranchisement, how can the government ask millions of American women educated in our schools and colleges and millions of American women in our homes, or tolling for economic independence in every line of industry, to give up by conscription their men and happiness to a war for Democracy in Europe, while these women citizens are given the right to vote on the policies of the government which demands of them such sacrifices?"

"For this reason many of your ardent friends and supporters feel that the passage of the federal suffrage amendment is a war measure which could appropriately be urged by you at this session of congress. It is true that this amendment would have to come from congress but the present congress shows no earnest desire to enact this legislation for the simple reason that you as the leader of the party in power have not yet suggested it. For the whole country gladly acknowledges Mr. President, that no vital piece of legislation has come thru congress these five years except by extraordinary and brilliant leadership. And millions of men and women today hope that you will give the federal suffrage amendment to the women of the country by the

THOMPSON REFUSES TO COMMUNICATE ORALLY

CHICAGO, Sept. 7.—After filing libel suits aggregating more than a million and a half dollars against Chicago newspapers and several individuals, Mayor Thompson today gave orders that reporters could not communicate with him orally hereafter. Any information which they may require must be put in writing.

The mayor also sent word to members of his official family and others in his confidence not to communicate with him by telephone. This was due to the declaration of the mayor and his telephone wires at home and office have been tapped, a sound recording device slipped into the walls of his apartments during his absence at his summer home and in his private office in the city hall.

Mayor Thompson refused to give an opinion as to whether the sound device listeners were agents of the federal government, of the state's attorney or the newspapers, which he declares have been hounding him.

WOMEN'S STATE DEFENSE COMMITTEE ADJOURNS

Complete Plans for Organizing for War Work

Plan to Boost the Coming Sale of Liberty Loan Bonds—Announce Congressional District Leaders in Coming Campaign.

Springfield, Ill., Sept. 7.—Adjournment was taken by the women's committee, Illinois State Council of Defense, here late today after completing plans for organizing women in the remote corners of the state for war work, boosting the coming sale of liberty loan bonds and hearing a short address by Governor Frank O. Lowden.

The governor returned to Springfield from Davenport, Ia., in time to tell the women of his personal interest in their war activities.

In a mock demonstration of the approved method of organizing communities for such services as women can perform, Miss Jessie I. Spafford of Chicago, proceeded to co-ordinate the various elements in the fanciful village of Lowden. Opposition of those supposedly opposed to the work the women's committee is doing was broken down by answers of Miss Spafford.

Announcement of congressional district leaders in the coming campaign for sale of liberty loan bonds was made by Mrs. Howard T. Willson of Virden, in charge of this work as follows:

Seven districts in Chicago, Mrs. Jacob Bauer; leaders in other districts Mrs. H. E. Bentley, Freeport; Mrs. Frank Gates, Moline; Mrs. Maida Fosgate, Quincy; Mrs. E. R. Griffin, Grant Park; Mrs. Dan Macknett, Decatur; Mrs. C. L. Lumpkin, Carlinville; Mrs. E. E. Schnepf, Greenville; and Mrs. Louis L. Emerson, Mt. Vernon. Others, it was said will be announced later.

The next meeting of the women's committee will be held in Centralia, Ill., the first week in October.

PLACE EMBARGO ON MONEY EXPORTATION

WASHINGTON, Sept. 7.—President Wilson tonight placed an embargo on the exportation of coin, bullion and currency. At the same time he authorized the secretary of the treasury to license such exportations where, in the opinion of the federal reserve board they are not harmful to the public interest.

The effect of the embargo which applies to all nations, will be to place absolute control over gold exports in the hands of Secretary McAdoo and the federal reserve board. Officials believe that the measure will go far toward conserving the huge store of gold accumulated in this country since the beginning of the war, a store which recently has been drawn upon rather heavily by Japan, Mexico and Spain.

The president's proclamation amends and supplements his general export embargo proclamation of Aug. 27.

GERMAN PEOPLE WANT PEACE BY CONCILIATION

AMSTERDAM, Sept. 7.—The overwhelming majority of the German people are for a peace by conciliation according to an article by Philip Scheideemann published in the Vorwaerter. The article urges the imperial chancellor to discredit the pro-Pan-German maneuvers for "a Hindenburg peace."

The Socialist leader says no one in Germany wants peace at any price but that those who live with the people know the real feelings of the army and navy. They know Germany will defend herself to the last drop of blood, and at the same time, they know also that Germany is ready today to sign a conciliatory peace. Therefore, Herr Scheideemann considers that the propaganda for conquest now being preached reaches the limit of consciencelessness.

ISSUES WARNING TO PAPERS.

Washington, Sept. 7.—The American union against militarism issued a statement tonight announcing its intention of suing for libel "any newspaper or press association which suggests that we are 'German agents' or are pro-German' or 'supported by German funds, or are guilty of sedition' or 'treason', however, these words may be modified."

VISIT GETTYSBURG

Washington, Sept. 7.—The naval and military members of the Japan mission went to Gettysburg today to visit the famous battlefield.

MANY INDICTMENTS APPEAR IN PROSPECT

Action May Result from Raid On I. W. W. Offices

Evidence Said to be Fast Accumulating to Support Belief that a Gigantic Conspiracy has Existed to Cripple Government in Carrying on the War.

Washington, Sept. 7.—Numerous indictments for conspiracy to thwart the government's war plans and tie its hands in many ways appear to be in prospect as a result of Wednesday's nationwide raid of Industrial Workers of the World offices by the department of justice agents.

Evidence Fast Accumulating

Evidence is said to be fast accumulating to support the belief that a gigantic conspiracy has existed for some time past to cripple the government in carrying on the war, that its ramifications have extended into virtually every state and that numerous anti-war activities which appear to emanate from many sources in reality had their fountain-head in a single group of conspirators.

Anti-draft demonstrations crippling of war industries by so-called labor disturbances and by violence, burning of crops and continuous preaching on anti-sally sentiment with other activities tended to embarrass the government and retard the exercise of its full strength in prosecuting the war appear from recent disclosures to have been included within the scope of the alleged conspiracy. Into the formation and the workings of this alleged conspiracy the department of justice has begun an inquiry more comprehensive it is said than any launched since this country's entry into the war.

Jury to Determine Point

How closely the anti-war activities and propaganda have been interrelated is to be determined largely by the federal grand jury now sitting at Chicago, investigating documents seized by the government agents in their raids Wednesday of Industrial Workers and Socialist offices of that city and thruout the country. Indications are that the alleged conspiracy had its origin in Chicago and for some time was actively directed from that city. There are also indications that German money financed in part this propaganda, that German funds were spent freely in many ways to further the ends of the conspirators and that of the many persons believed to be actively identified in carrying on the work, a few know of this source of financial support.

AGREE TO OBSERVE ANY REGULATION

WASHINGTON, Sept. 7.—Livestock producers of the country meeting here with the food administration and the department of agriculture to discuss means of stimulating meat production pledged themselves tonight to observe any regulation the government may adopt for control of their industry and named a committee of 25 men to co-operate with officials in dealing with a threatened meat shortage. The committee included the following:

Dairymen—G. W. French, Iowa.
Beef raisers—Senator J. B. Kendrick, Wyoming; A. F. Gage, Texas.
Swine men—H. C. Wallace, Iowa; Charles H. Sutton, A. J. Lovejoy, Illinois.

In resolutions adopted the livestockmen recommended a government policy to encourage the growing of food animals, a stimulating price in purchases by the food administration for the government and the alien, a licensing system for packing houses to insure just prices to both producer and consumer, establishment of central retail meat markets under government control to sell to the consumer at cost plus a small profit and special freight rates on livestock.

RELEASE BRITISH FLYING INSTRUCTOR

KANSAS CITY, Mo., Sept. 7.—Lieut. Fayette M. Deeds, of the Royal British flying corps, who was arrested and held here for forgery committed two years ago at Cedar Rapids, Ia., was released this afternoon. He will return to Camp Borden, Can., where he is an instructor in a British aviation camp.

His release came after his mother, who lives in Kansas City, made good a check for \$86 which he is said to have raised to that amount.

TO TAKE UP QUESTION OF ALSACE-LORRAINE

COPENHAGEN, Sept. 7.—It is reported by the Vossische Zeitung of Berlin that the question of Alsace-Lorraine probably will be discussed at the session of the Reichstag which is to be opened September 26. Presumably, the discussion will relate to the erection of Alsace-Lorraine into a monarchy within the German empire.

A minor Reichstag reform bill promised by the government granting some thirty additional seats in the Reichstag to the larger cities and most thickly populated industrial districts will be introduced. Other bills would be brought forward to deal with the falling birth rate.

ITALIANS PRESSING THEIR ATTACKS HOME

Take 30,000 Prisoners In Present Drive—Estimate Austrian Loss 120,000

DEAD COVERED GROUND

Heavy fighting for the possession of Monte San Gabriele, and other important positions northeast of Gorizia still is in progress but the Italians are pressing home their attacks despite desperate resistance. Although suffering heavy losses the Austrians are battling tenaciously for the heights positions. General Cadorna's latest report however, says that the Italian pressure is continuing decisively. The Italians have added 200 more to the number of prisoners taken in the fighting here.

Austrians Stop Attacks.

On the Carso and in the region of the Hermada, the Austrians have stopped their unsuccessful attacks but the artillery battle rages incessantly, making the whole region an inferno. Only local infantry actions for the purpose of straightening out their lines have been carried out by the Italians.

In their present drive the Italians have already taken 30,000 prisoners and the total losses of the Austrians are estimated at 120,000. Northeast of Gorizia, the Austrians have been on the defensive. On the Carso, especially the region of the Hermada, their offensive efforts have failed with great losses. The ground over which the Austrians charged this week trying to keep the Italians from advancing further toward Trieste is heaped with dead.

German Advance in Force Slackens.

German cavalry has been engaged with Russian rear guards at Zegevoid, forty miles east of Riga, but apparently the German advance in force has slackened. Around Friedrichstadt about fifty miles southeast of Riga, the retreating Russians have set fire to several villages. There has been no large infantry activity on the western front.

North of Fribzenburg in the Ypres region the British have been compelled to withdraw from positions occupied Thursday. Around Lens the Canadians have been fighting hard with the Germans. On a part of the sector west of Lens, German counterattacks resulted in gains, but on the southern end of the sector the Canadians extended their positions. The Canadian front here now is a serious menace to the German positions along the Souchez river.

Artilleries Continue Active.

On the French front there was no infantry activity Friday. Along the Aisne, in Champagne, and on both banks of the Meuse, opposing artillery continue active.

German airmen last Tuesday bombed a group of British-American hospitals on the French coast. One officer of the American Medical Corps was killed and three officers were wounded, severely by bombs dropped on a Harvard Hospital. Five Americans were among the sixteen other persons injured. One man was wounded by a bomb which fell on the hospital of the St. Louis unit.

PROMOTE SIX PRIVATES TO RANK OF SERGEANT

ROCKFORD, Ill., Sept. 7.—Selective service men in Camp Grant today received proof of their opportunities for advancement, when six national army privates of one day's training were promoted to the rank of sergeant, in the 342nd infantry regiment. They are Arthur M. Syne, Cook county; D. R. Williams, Lake county; H. D. Hill, Aurora; W. G. Kempler, Stephenson county and Russel Born and Leon Duffin, Ogle county.

Rain today confined the new soldiers within barracks where they were given instruction in the manual of arms. Next week will bring 150 young women Red Cross workers to the camp to campaign for the relief organization.

FORMALLY DENIES REPORTS

Boston, Mass., Sept. 7.—William M. Wood, president of the American Woolen Company, issued a formal denial today of recently published reports that the company had planned to bring a number of Porto Rican laborers to this country for employment in its mills. In the absence of Mr. Wood, officers of the company said last week, that such a move had not been contemplated.

SIGNIFICANT CROP FIGURES.

The government's September crop report shows quite convincingly what favorable weather conditions and the agitation for increased acreage have done for the corn crop. The estimate now is for a total corn production of 124,000,000 greater than the previous high record made in 1912. The figures emphasize too the marvelous agricultural possibilities of this country. The corn acreage was greatly increased this year, and if the prospect for high prices continue there is every reason to expect a still greater acreage in 1918.

THE VALUE OF HUMOR.

"Judge," one of the oldest of American publications devoted to wit and humor, is offering prizes for "jokes" sent by soldiers in the trenches or at the front. "Judge" goes on to say that war at best is made up of grim realities but that nevertheless there are often situations which approach the ludicrous and ridiculous. Soldiers are often able to see this side of war, and the ability to do so relieves many a tense situation. "Judge" hopes by this offer to stimulate a sense of humor among soldiers, and while this line of work could be taken up only by a publication of the class which "Judge" represents, it is a work really worth while. Anything which can relieve the somberness of warfare or lighten the hearts of soldiers is important. Just for the same reason the individual who can forget troubles and with cheerful mien go forward to meet and conquer those troubles, is in much better form for that conflict than is the man who broods and worries and so speedily gets into a condition of mind and heart which brings defeat the nearer.

OUTDOING THE BOYS.

A girl in Watertown, Wis., recently took a position delivering bundles for a butcher shop, work which her brother gave up when he was called into the national army. Now the "butcher" declares that this girl is worth four boys as a matter of promptness and faithfulness in her work. That is a condition that many boys, young men and those older must face after the war is over and they begin to seek out positions that they held before they entered the army service.

The testimony of many employers in European nations is that they are finding girls and women who have taken up new work as a result of war conditions, discharge their duties in a way much more satisfactory than was true of their predecessors in this work. So there will be new labor problems in after war conditions, and many of the male workers will find their positions taken, not temporarily but permanently, by women. Another result may be better standards of service, and so the general adjustment sure to come may be beneficial to everybody concerned.

SIGNS OF THE TIMES.

Think of how times do change. A saloon keeper in Quincy has been fined \$25 and costs for failing to comply with the state law providing that windows of all saloons shall be free from shades or blinds on Sunday. The time was not so very long ago when all that was expected from Quincy saloon keepers on Sunday was to pull down the blinds at the front of their establishment and leave the back door unlocked.

THE POPE NOT DISCOURAGED.

It is said that Pope Benedict was not disheartened by the failure to have his recent peace suggestion approved by the U. S. and the allies. Furthermore, it is authentically reported that he is preparing a second peace note. Probably the pope realized full well that the tangled affairs of the many nations now at war could not be straightened from one suggestion and that he had hope that the replies to his first peace note would simply serve to pave the way for suggestions which might be more far-reaching in their effect. At any rate the world will receive peace suggestions from vatican sources with great respect and due consideration. The allied nations may with reason declare that conditions just at present are not conducive to a satisfactory discussion of peace terms, yet all the nations at war realize full well that a warfare costing so much in human life and treasure each hour that it is continued, should be brought to an end just as speedily as possible.

OVERZEALOUS FRIENDS.

Gov. Lowden was introduced at the McHenry county fair the other day by an over-zealous friend who declared, "He is the best governor Illinois ever had and when he finishes his term we want him for president." The crowd readily took up the sentence and so a presidential boom for Lowden was launched. The less impetuous friends of the governor are ready and willing to admit that he is presidential timber all right, and that his administration as governor thus far has been marked only by strength and wisdom. But they know, too, that they should allow the future to take care of itself. The well intentioned friends of political leaders often do them injury by their over-zealousness. It would be a better time to talk about the governor and the presidency two years hence.

The governor appreciated the compliment but did not take the introduction seriously and voiced a state-

ment that he has previously made, that his interest in agriculture is deep and that he sincerely desires to return to private life at the end of his four years as governor and to devote his time and energies to his farming affairs.

SEES ERROR IN "BABY HEALTH SHOW."

At the state fair the coming week a baby health conference will be held one day and it is said that nearly 400 babies have been listed for examination and scoring. Throughout the state for several years past physicians and health officers generally have given their approval and aid to "baby health conferences," which have been held in many counties and cities. Earlier in the year in many instances a week was devoted to this baby welfare work.

While the majority so warmly approve this work, it is interesting to note that one occasionally hears a dissenting voice, and from high sources at that. The current Literary Digest quotes an editorial utterance in The Hospital, a London Medical publication. This writer is thoroughly opposed to the various baby shows which have become both popular and common in England. He maintains that the promiscuous gathering together of so many babies and examining them critically in the same manner that they would cattle, is vulgar and degenerating and that it has a bad effect especially upon the parents. Then the writer goes on to find this fault with baby welfare work: "There is another defect which justifies criticism. We refer to the large element of pretense and unreliability which must in the nature of things characterize the awards of judges. By what certain standards can any one appraise the comparative values of the individuals in a group of healthy babies? The pretense to do so is little better than a sham, and the result is utterly without actual or practical value. A great majority of health workers will not agree with this critic but his statement will find a responsive answer from many mothers whose dear children have not scored well or have not been awarded the blue ribbons that the parents expected."

WOMEN WILL AID HOOVER'S PLANS.

Under the Hoover Food Administration plan Illinois has been divided by the States Relations Service into seven districts for Home Economics work. Morgan county is the Fourth District. The leaders of this district is Mrs. Mary E. Bronson located at Springfield. During the State Fair Mrs. Bronson will have office room in the Exposition Building, south side, near the club building exhibit.

At this time when our government is asking a special service of the women of the country to save wheat, sugar and fat to enable us to feed our soldiers abroad there never was a greater need for women to know the relative value of different foods and the easiest and quickest way to prepare them in order to get the greatest nutriment at the least expense of time and energy. In order to secure this result a county adviser in Home Economics who has had the benefit of scientific training as to food values would be of great service to the housekeeper.

The one county in Illinois which has an adviser in Home Improvement will lend its assistance. If you are interested in the government plan for improvement of the homes in your county during the coming year, don't fail to call on Mrs. Bronson at the State Fair, Exposition building, south side, near the canning club exhibit.

In those counties which will organize a desire to call a Home Improvement Adviser the federal government will lend its assistance. If you are interested in the government plan for improvement of the homes in your county during the coming year, don't fail to call on Mrs. Bronson at the State Fair, Exposition building, south side, near the canning club exhibit.

BACK TO ILLINOIS.

The West it is a glorious dream With all its hidden gold The beauty of its mount and stream, Its men and women bold; But now I'll hie me back again, And count it wondrous joy, To walk again the paths of men In dear old Illinois.

In Illinois I long to be To view its prairies green; Once more old friends I wish to see, And each remembered scene; Oh hasten train and bear me on For now the beauties cloy And may I ope my eyes at dawn In dear old Illinois.

THIS DATE IN HISTORY

September 8, 1849—Wheat is now going to Chicago from below Beardstown, and business is brisk in every way on the Illinois river. Can't some of the members of the legislature in that quarter contrive to injure this business, by going in for a measure to divert trade and travel from the Canal and Illinois river?

Social Events

Pastors Aid of First Baptist Church Met.

The Pastor's Aid Society of First Baptist church held a called meeting at the church Friday afternoon. There was a good attendance of members and the hours were passed in tying comforts. The society will hold an all day session at the church Wednesday, September 12th, at which time sewing will be done for the Red Cross. All ladies are urged to be present and bring their lunch.

Party at Faugust Home.

Misses Hulda and Nell Faugust entertained a small company of friends Friday evening at their home on East State street in honor of Mrs. C. W. Hardist and daughter, Miss Stella, of Moberly, Mo., who are visiting for a few days at the home of Mr. and Mrs. Carl Faugust on East College Avenue. Music and social good time made the evening most enjoyable. At a late hour dainty refreshments were served by the hostesses.

Miss McEvers Entertains For Miss Daisy Landes.

Miss Pearl McEvers entertained the B. K. club at the home of her sister, Mrs. Carl French, 907 East College Avenue in honor of Miss Daisy Landes of Milton. The evening was pleasantly passed with games, music and readings. First prize was won by Miss Carrie Curtis, second prize by Miss Kathryn Hines and the consolation prize went to Miss Mae Sherry. Refreshments consisting of sandwiches and watermelon were served. The guests were Misses Ada Brown, Alice Butler, Cora Butler, Lottie Blackburn, Doris Jordan, Ethel Cooper, Carrie Curtis, Kathryn Hines, Carrie Curt-Margaret Lynch, Frances Main.

FUNERALS

Freeman.
Funeral services for Miss Mary M. Freeman were held from the old Peoples home Friday afternoon at 2:30 o'clock in charge of the Rev. M. L. Pontius pastor of the Central Christian church. Hymns were sung by Miss Cora Graham and W. W. Gillham. Burial was in Diamond Grove cemetery the bearers being, John Crouse, A. C. Rice, Felix Sims and William Clarkson.

Anderson.
Funeral services for Mrs. Carrie Anderson were held at the residence on North Main street at 2:30 o'clock Friday afternoon in charge of Rev. A. A. Todd, pastor of the First Baptist church. There was a large number of friends and relatives present both at the house and at the grave. The flowers were cared for by Misses Ethel Gough and Josie Jesse. The pall bearers were: William Evans, Harrison Davenport, Alfred Davenport, Ira Lamb, Patrick McElhatton and Mr. Thompson. Appropriate music was furnished by Mrs. Breitwiser and Miss Massey. Interment was made at the Jacksonville cemetery.

BIRTH RECORD

Born, Friday to Mr. and Mrs. O. L. Crum of Litterberry, a daughter. Born Wednesday, Sept. 5th a nine pound boy to Mr. and Mrs. Walter Huss of Decatur. Both Mr. and Mrs. Huss were formerly residents of Jacksonville. Mrs. Huss was formerly Miss Lona Herman, and is the daughter of Mr. and Mrs. A. B. Herman of North Church street.

MORE MEN ENLIST

Harley O. Phelps has been accepted for the marine corps at St. Louis. This new recruit was procured for the service by Postmaster R. I. Dunlap, who sent in the application several days since. Yesterday a telegram instructed young Phelps to report for service at once.

Sergeant Hanson who has been in charge of the recruiting work at the postoffice here for several days, has enlisted two men for service. They are George W. Baker, who has been assigned to the field artillery in the regular army, and Frank Shoemaker, who was accepted as a second class machinist in the engineering corps of the national army and assigned to duty at Washington, D. C.

J. W. Crum of Girard was a business visitor in the city yesterday. Mr. Crum formerly lived near Virginia but for a number of years past has been a Macoupin county resident. He deals extensively in lands and his mission to Morgan county is to see if he can locate any desirable tracts here that are for sale.

RAIN IN SOUTH AND EAST

Reports from Murrayville, Woodson, Franklin and Alexander was that a heavy rain fell between 6 and 8 o'clock Friday evening. East of Woodson there was considerable wind but no damage was reported.

LITERBERRY LADIES' AID SOCIETY MEETS

Mrs. A. G. Lind Entertained Members at Farm Home—Arrange for Annual Chicken Fry—Mrs. C. P. Henderson Visits Childhood Home.

Litterberry Illinois, September 6.—The Ladies' Aid of the Baptist church met on Wednesday afternoon at South View Farm with Mrs. A. G. Lind. The usual program was carried out and arrangements made for holding the annual chicken fry on Wednesday afternoon and evening of the 12th of this month. The president, Mrs. Vinie Petefish, appointed as the general committee, Mrs. M. M. Crum, Mrs. J. M. Daniels, Mrs. W. W. Young. Other committees will be appointed and notified in due time, so you may be sure the work will go right along with a good men on the program, and everything on time. There will be attentive waiters and plenty to eat. Litterberry knows how to serve a first class feast any day, be it chicken fry or watermelon festival. Everybody is invited and everybody expected to be there.

Mrs. C. P. Henderson of Shady Oak Farm gave herself a two weeks' vacation and filled the full time with a pleasant journey among childhood scenes and among friends and relatives. Mrs. Henderson first visited Lamar, Mo., where she took part in a reunion of her sister's family, there being twenty-four grandchildren present, and not a very good time for grandchildren either. Her next stop was at Dallas City, Ill., where she found relatives and many friends and old acquaintances. She visited the old school house where she first went to school. The old school room is still standing and looks perfectly natural, although it has been fifty years since she last saw it. Mrs. Henderson also visited the old church near the school house. This building is also well preserved and the same old pews are still doing service. Here it was that Mrs. Henderson first attended Sunday school. The church is known as "Ebenezer". During her visit there the friends held an old fashioned basket picnic at this old church where everything good to eat and drink was spread on that old church lawn. These people are all good Christians and temperance, proper. Full duty was done by the happy crowd, to this bountiful feast. Among those present were Mr. and Mrs. J. W. Herron of La Prairie, Ill.; Mr. and Mrs. C. H. Herron, Mr. and Mrs. George Hecock, Mr. and Mrs. Henry Willard, Mr. and Mrs. Earl Binkley, all of Bowen, Ill.; Mr. and Mrs. Steward Moss and son Verter, and daughter Zella, of Golden, Ill.; Mr. and Mrs. Z. E. Lancaster and Miss Edna Lancaster of York, Neb.; Mr. and Mrs. John Rist and son Otto of Dallas City, Ill.; Mrs. Harry Hutches and daughter Bernice of Jacksonville, and Mrs. C. P. Henderson and many others. This seems to have been a great outing for Mrs. Henderson and was worth a great deal to her in the way of health and rejuvenating of spirits, for she looked ever so much younger on her return that her husband hardly knew her and had to be introduced. It was all right with Mrs. Henderson when she opened her grip and gave him some of the finest red apples he ever saw, fresh from Missouri. We wonder why some others do not take a vacation.

DR. CARSON

Chicago Specialist

In the treatment of Chronic Diseases, will be at the Dunlap Hotel, Jacksonville Ill., Wednesday, Sept. 12, 1917. ONE DAY ONLY. (Returns every 28 days.) Hours, 8 a. m. to 4 p. m.

Fourteenth Successful Year in Jacksonville. Consultation and Examination Free.

I treat successfully the cases I undertake and accept no fee from those who are incurable. That is why I continue my visits year after year, while other specialists make only a few visits and cease to return.

IS THIS THE WAY YOU FEEL?
Tired in the morning and easily excited? Are you dizzy or nervous? Pain in the head? Tongue coated? Have you Catarrh—nose stopped up? Gas on the stomach? Hands and feet cold? Pain of hands moist? Have you a dull, dragging pain or ache of the body, back or limbs? Have you Rheumatism? Have you Piles? Piles—itching or bleeding? Have you kidney or bladder trouble, lame or weak back, pains in back or joints? Have you any blood disease—scrofula, skin eruptions, pimples, bone pains, pale complexion and losing weight?

I invite you to call and investigate the Carsoned System of the treatment of Chronic Diseases, which I have perfected after fifteen years of experience and study, and you will be convinced that my modern, up to date methods of curing disease are what you need.

Never before has there been a treatment giving such universal satisfaction. Every sufferer is cordially invited to call and secure full details concerning this new treatment free of charge.

REMEMBER DATE OF VISIT.
Come early as parlors are always crowded. A friendly call may save you future suffering. It has made life anew to thousands who had been pronounced beyond hope.

Gold Tip POST SPADES

We have made a special study of spades for ditching and excavating. For years we have been experimenting—using different grades of steel, different shapes of handles—in an effort to produce a spade light in weight, but strong enough for service and of just the right "hang".

We have learned about spades
Perhaps more than any other merchant, and we know we are telling you nothing but the exact truth when we say that GOLD TIP SPADES are the best that have ever been sold for the purpose for which they are intended.

HUNDREDS OF BABIES TO GO TO STATE FAIR

Large Entry List For Health Conference—Wives of State Officers on Executive Committee—Ayers Bank Offers Prize for Best Record By Morgan County Child.

At the hour of closing the entries for the Baby Health Conference which is to be held at the State Fair all of next week, approximately four hundred babies had been listed for examination and scientific scoring. The interest in this event far exceeds the early expectations of its promoters.

The committee in charge of the various departments of the conference are now busily engaged in preparing to receive the host of youngsters which will be their special charges next week. The final touches are being put on the attractive new quarters especially constructed in the Exposition Building for the purpose of this affair. Every comfort and convenience will be provided for the mothers and their children, not the least of which will be the nursery in the balcony of the Exposition Building, adjoining the baby conference rooms, where the mothers may take their babies for rest and care under the watchful eye of trained nurses.

Gov. and Mrs. Lowden Interested.

Both Governor and Mrs. Lowden are interested in this event. The Governor will be present at the afternoon conference on Saturday September 15, and after an address appropriate to the occasion will present awards to the following: (1) To the mother of the highest scoring child in the weeks' conference, a solid gold watch donated by the Illinois Watch Company; (2) to the father of the child showing the greatest improvement in physical condition since the health conference in 1915, an order for a life insurance policy for \$1,000 with funds to pay the premium for one year (3) to the family of six children showing the highest average score, the News-People silver loving cup.

Mr. Lowden whose interest in the welfare of children is a matter of common knowledge, is a member of the Executive committee of the conference. The other women serving on the committee with Mrs. Lowden are: Mrs. Louis L. Emmerson, Mrs. Omar H. Wright, Mrs. Richard Yates, Mrs. Don Deal, Mrs. Andrew Russell, Mrs. B. F. Langworthy, Mrs. Len Strail, Mrs. Frank S. Dickson, Mrs. Chas. Adkins, Mrs. Francis G. Blair, and Mrs. St. Claire Drake, Chairman.

Various Committees.

Other important Committees are as follows:

Committee on Awards—Mrs. Burton M. Reid, Dr. Don W. Deal and L. T. Souther.

Committee on Equipment—Mrs. Frank S. Dickson, Mrs. J. D. Robertson and Mrs. C. St. Claire Drake.

Committee on Comfort and Safety—Mrs. James Jones, Mrs. Don W. Deal, Mrs. Ralph Bradford, Mrs. Barney Cohen, Mrs. Thomas G. Vernum, and Mrs. O. C. Scott.

Committee on Scoring—Mrs. George T. Palmer, Mrs. Roy Ide, Mrs. A. C. Millsbaugh, Mrs. F. D. Fletcher, Mrs. Clarence Malone and Mrs. Annis Smith.

Among the common-sense awards offered there is special interest attaching to the savings accounts which have been donated by local banks for the highest scoring children residing in their respective counties. In addition to the awards of this character previously announced and including Sangamon, Cass, Ford, Logan and LaSalle Counties, the following have been added for townships in Sangamon County: Iliopolis township, savings account with ten dollar deposit, by the Farmers' State Bank of Iliopolis; Williams township, savings account with an initial deposit of five dollars by the Williamsville Bank.

For the highest scoring child of Morgan County, the Ayers National Bank of Jacksonville offers a savings account with five dollar initial deposit.

Eight sets of twins are entered in the contest. The winners of this class will receive a beautiful solid silver loving cup, while each pair of twins having second and third high scores will be presented with a pair of shoes for each child by the A. W. Klahoff Shoe Store of Springfield.

SCOTT COUNTY YOUNG PEOPLE MARRIED

Miss Mildred Walker and Everett Smithson Wed Thursday—Winchester News Notes.

Winchester, Ill., Sept. 7.—The marriage of Miss Mildred Walker to Mr. Everett Smithson occurred Thursday evening at 8:30 o'clock at the Baptist parsonage, Rev. W. R. Johnson performing the ceremony. The attendants were Miss Lois Dean and Mr. Roy Hamilton. Prof. Ernest Magdanz Arrived in City Yesterday in Readiness for Opening of Term—All Important Branches Taught.

Prof. Ernest Magdanz, who has been called by the Salem Evangelical church of this city as organist, choir director and teacher arrived in the city yesterday from Pierce, Neb., accompanied by Mrs. Magdanz, and for the present they are guests of Rev. and Mrs. J. G. Kuppler.

Prof. Magdanz in addition to the duties above enumerated will be assistant to the pastor and have charge of the religious instruction of the children of the congregation. He will assist the pastor in mission work and has a life call.

Ordination services will be held at Salem Lutheran church next Sunday morning. The service will be conducted in both German and English. All friends of the church and school and especially pupils of the day and Sunday school are requested to attend.

Salem Lutheran school will open its term Monday morning, and indications point to a large attendance. Parents wishing to enter pupils in the school are requested to confer with Rev. J. G. Kuppler or Prof. Magdanz or bring them to the school Monday morning. The school is located on East College street between Mauvasterre and East streets.

Some have the impression that the German language is only or predominately used in the school. This is a mistake as the German is taught only that pupils may become proficient enough in its use to read, write and understand it.

All of the important branches taught in the public schools are taught in the Lutheran Parochial school. In addition attention is given to Bible teaching and Luther's small catechism. Lutherans believe that religion should be the foundation of every child's training. "The One Thing Needful" is given daily at the Salem Lutheran school. The school is graded and pupils successfully passing the eighth grade examinations are admitted to the high school.

BOUGHT "BEAR CAT" STUTZ CAR

J. G. Reynolds and Warfield Brown, who left Wednesday evening for Chicago to drive home the new Stutz car which Mr. Brown recently purchased came thru to Bloomington Friday but on account of rain and muddy roads decide to remain over a day until the roads improved somewhat.

Mr. Brown's new car which was purchased thru Reynolds Bros. is what is known as the Bear Cat model and is a two passenger car, built along racing lines. It has all the latest improvements of the new model Stutz and the power plant is the 16 valve motor, the same as that used in the Stutz racing cars. This famous car has many track records and also holds the world's road race speed record and that for endurance.

The new car of Mr. Brown is finished in canary yellow with black fenders. The car will probably arrive in Jacksonville today. Reynolds Brothers who have the agency for the Stutz in the past will continue with the agency of this fine car.

ADAMS COUNTY MAN DIES AT BLUFFS

John C. Murrah of Coatsburg Passed Away at Home of Son Tuesday. Funeral Services Friday—Attendance at Chautauqua Large—Other Bluffs Items.

Bluffs, Sept. 6.—John C. Murrah, of Coatsburg passed away at the home of his son, Charles A. Murrah in Bluffs, Ill., Sept. 4th., after an illness of three weeks. Aged 72 years, 2 months and 4 days. He was born near Coatsburg in 1945 and grew to manhood there following the occupation of farming in his younger days, and later that of a carpenter.

On October 2, 1866 he was united in marriage to Miss Martha Kessler of Honey Creek township near Coatsburg. Two children were born, Chas. A. Murrah and his twin sister who died in infancy. Three weeks ago his final illness came upon him and feeling that the angel of death was near, he was brought to Bluffs that he might be with his loved ones here.

Besides his widow, he is survived by one brother, P. E. Murrah and a sister, Mrs. C. M. Gibbs, both of Coatsburg and one grandson, Cecil Murrah of Kansas City, Mo. Short funeral services will be held at the Murrah home early Friday morning. The remains will be taken to Coatsburg, where interment will take place at 11 a. m. Friday.

Mrs. J. H. Monds, P. E. Murrah, of Coatsburg and Mrs. A. D. Eary, of Loraine, were called here Tuesday by the illness and death of J. C. Murrah. Cecil Murrah, grandson of the deceased also arrived Tuesday evening.

Mrs. P. J. Rinehart and daughter Miss Suzanne left Monday for a visit with relatives and friends at Effingham.

The Chautauqua is drawing a crowded tent at each session and the play time and story hour, conducted especially for the children is pleasing the little ones and many of the older ones as well.

CRAPSHOOTERS ARRESTED.

valor of your leadership now. It will hearten the mothers of the nation, eliminate a just grievance, and turn the devoted energies of brilliant women to a more hearty support of the government in this crisis."

Outlines His Activity.

Mr. Malone then outlined his activity in behalf of President Wilson and the government during the last seven years.

"Will not this administration recede to power by the hope and faith of the women of the west, handsomely reward that faith by taking action now for the passage of the federal suffrage amendment?"

Mr. Malone asked and concluded as follows:

"It seems a long seven years, Mr. President, since I first campaigned with you when you were running for governor of New Jersey. In every circumstance through these years I have served you with the most respectful affection and unshadown devotion. It is no small sacrifice now for me as a member of your administration to sever our political relationship. But I think it is high time that men in this generation, at some cost to themselves, stand up to battle for the national enfranchisement of American women. So in order effectively to keep my promise made in the west and more freely to go into this larger field of Democratic effort I hereby resign my office as collector of the port of New York to take effect at once or at your earliest convenience."

"Yours respectfully, 'Dudley Field Malone.'"

HOUSE TAKES UP INSURANCE BILL

WASHINGTON, Sept. 7.—Consideration of the sailors and soldiers' insurance bill began in the house today with its supporters predicting a passage tomorrow night or early next week.

Representative Parker of New Jersey filed a minority report against the bill. He declared that the cost of executing the optional insurance feature of the plan would be far more for the first year than the \$176,000,000 the bill would appropriate. He cited statistics to prove the first year's cost, with two million men in the field would be \$1,170,000,000.

TRICK RIDER DIES

Chicago, Sept. 7.—Miss Juanita Parry, 23 years old, a trick rider in a circus, died today as a result of an accident while performing on Labor Day. Her horse slipped as the rider turned a somersault, falling on her and breaking her neck. Physicians at the hospital where Miss Parry was taken said it was remarkable that she lived so long.

REFUSE TO CONFIRM PERKINS

Albany, N. Y., Sept. 7.—By a vote of 25 to 18 the senate today refused to confirm Governor Whitman's nomination of George W. Perkins of New York as president of the new state food commission. The governor will be able, if he desires, again to name Mr. Perkins when the extra session of the legislature reconvenes September 15. No action was taken today on confirmation of the nominations of Jacob Gould Schurman and Charles W. Welting as the other members of the committee.

PROHIBITION SPRINGS UP AT M. E. CONFERENCE

Springfield District Superintendent Declares No Member of Congress is Fit For That Office if He Refuses to Allow His Constituency the Right to Vote on Prohibition.

(By C. R. Morrison)

Champaign, Ill., Sept. 7.—If it is thought that the new enemy of autocracy embodied in the call to war against the German government, has made the Illinois Conference forget the old enemy, King Alcohol, it is a mistake. The prohibition question springs up on almost every unexpected occasion. In the report of District Superintendent Piersel of Springfield, a statement was made that called out spontaneous and vigorous applause. He said: "No senator or representative in Congress, is fit for that office, if he refuses to allow his constituency the right to vote on the question of prohibition. Such officers should be reminded of their obligations continually, until the time of election."

The custom of an address to the ministry at the half hour devotional service in the morning by Bishop Nicholson. His first theme, was a lesson from the call of Moses, and his reluctance to answer the call. It was a call to sacrifice, as well as to service. The second address of Dean Birney, was equally popular, in which he emphasized the power of personality in winning souls to God. He quoted John Durbin in saying that no soul was ever brought to God without human agency and when called in question on the statement, replied: "Understandest thou what thou readest? How can I except some one show me."

Conference Claimants Campaign

In all of the reports of the eight district superintendents, special and congratulatory mention was made of the campaign in behalf of an endowment fund for the retired ministry. Dr. H. C. Gibbs, especially was praised for his leadership in the canvass throughout the conference during the past year.

A very carefully prepared report of the year's work was published and distributed to the conference members at the annual meeting of the cause, which was honored by the present and vigorous address of the General Conference official, Dr. J. B. Hingeley of Chicago.

A total of \$126,535.75 has been pledged to this endowment fund this year, which has four years for payment, of which sum, \$29,687.33 has been cash. Jacksonville District, has the unfortunate distinction of being at the bottom of the list, with but \$7,339.60 pledged to this fund and only \$2,762.64 paid, while Bloomington district pledged \$25,378.80 and paid in \$6,818.23. What is known as "Saddleboys Day" collection a ten cent offering from the Sunday schools on Christmas day amounted to \$3,662.83.

It is planned to set aside a month for each district during the coming year for a careful canvass and secure from each church an amount equal to the salary of the pastor (in five annual payments) for the cause. It is a worthy cause.

The Woman's Home Missionary Anniversary.

On account of illness, Mrs. Annie Stover Haywood of Pana, the efficient president of the conference W. H. M. S. was unable to preside at the annual gathering of the women at the anniversary hour on Thursday, but Mrs. A. W. Conklin, was in charge. Something spectacular was undertaken this year by the presentation of the children of the Cunningham Home of Urbana, in song and drill and exercise. The speaker of the occasion was Hilde Nasmith, superintendent of the Adeline Smith Home of Little Rock, Ark. She gave a wonderful address Her history, in itself was interesting. Going to Africa, at the age of 22, under Bishop Taylor, being left soon afterwards, a widow, by the death of her husband, of African fever. She was advised to some home and take up industrial work among the colored orphan children of America, which she did and is doing so successfully in the south. The society reports \$15,000 cash received from Illinois Conference local societies during the past year, besides double that amount in supplies sent to the various institutions of the society and to the frontier.

Appointments.

The matter of appointments is still a solemn secret, and very little is rumored concerning what is to be. Rantoul is suddenly made a problem of the incoming of a big troop in aviation training for the World War. The officials of the local church are seeking a \$2,000 man for the vacancy occupied last year by Rev. M. M. Want, who takes a supernumery relation. The suggested list is as follows: E. G. Soulmeyer of Marshall, A. A. Heinlein of Kansas, J. C. Brown of Decatur, E. L. Pletcher of Jacksonville, C. M. Duncan of Shelbyville and J. W. Miller at Rantoul. And there are others. These men are all spoken for already. There is some consolation in the fact that Rantoul cannot have all of them.

Annual Lecture.

The annual paid lecture to aid in the expense of entertaining the conference was held Thursday evening. It was a great success. Dr. W. R. Wedderspoon of St. James Church of Chicago was the lecturer, and his theme was "Ian McLaren's" classic, "Beside the Bonnie Briar Bush." The Scotch ancestry of Dr. Wedderspoon, his quaint humor, and his rare skill in sketching events described by the famous Dr. Watson, held the eye and ear of the great audience for an hour and a quarter with greatest ease. William Preston Phillips, who with his wife, are spending a few days at his father's home in Cerro Gordo, was prevailed

Patriotism Keynote of Speeches.

(By Associated Press)

Champaign, Ill., Sept. 7.—Patriotism was the keynote of the speeches delivered here tonight at a banquet at the ninety-fourth annual session of the Illinois Methodist conference of the Illinois Methodist church.

B. F. Harris, vice-chairman of the Illinois State Council of Defense, who presided at the banquet said:

"The only so-called civilized or cultured group or nation that has forgotten, or rather trampled down and turned back the spiritual development of a thousand years, is the German nation, whose Prussian dictators and autocrats blaspheming God have poisoned the minds of its too supine supporters until all teachings of Christ and their own Luther and Kant, Goethe and Schiller, are becoming a by-word and Prussianism, a soulless, baleful influence thruout the world. I want you to agree with me in the no uncertain part this great church can and must take in this, our war and wherein the soul and conscience of Christendom cries out for succor."

"Democracy itself is at the bar of judgment with all that our beloved gone before have sought for and wrought for, and that is more than ever worth fighting for."

"Against Prussianism, an abomination and horror in the sight of God and man the church must lift its voice and set its face like steel. It must make clear that civilization and Christianity has not broken down; that we will not permit it to be broken down save with our own lives; that there is more human brotherhood and fear of God in the world than ever before."

It must make clear that William II, last of the Hohenzollerns and his military machine of murder and wanton waste are madmen and ghouls, who would rule or ruin; that they and the terrible Turks stand alone and that there can be no righteous peace, until these hell hordes are throttled, never again to menace the world nor delude and enslave a people."

NO DATE HAS BEEN SET FOR SECOND CALL

WASHINGTON, Sept. 7.—Provost Marshal General Crowder today reiterated that no date has been set for a second call for men for the national army and that so far as it is known no second call is contemplated by President Wilson. Rulings issued today provide that a registrant whose order of liability does not permit of his being selected for the first quota, cannot, even at his own request be advanced and sent with that quota.

The acceptance of substitutes for men selected for military duty is prohibited and local boards are instructed not to consider claims for exemption based upon a discharge of a registrant from the army, navy or marine corps at the expiration of enlistment or for some physical disability, since corrected.

Other ruling is that registrants may in certain circumstances be exempted or discharged to enable them to continue in non-military pursuits but after they are selected for military service they may not be assigned to non-military service.

SPECIALISTS CONTINUE TO OBSERVE SYMPTOMS

TOPTON, Ia., Sept. 7.—Specialists from Iowa University and physicians of Cedar Rapids, Tipton, Mechanicsville and Iowa City continued their observation of symptoms of those ill from a mysterious poisoning in the family of Joseph Kirkman, eight miles northeast of here. It has been determined that the cause of death of two children and the illness of five other persons was a poisonous germ but its nature is not known. The three children and wife of Joseph Kirkman and Mrs. Walter Chellis, who are ill from the effects of the poison will recover. It is believed. The report of the chemical analysis of the food and water on the farm will be made known tomorrow.

All Choked Up With Catarrh? Why Continue Makeshift Treatment?

Sorays and douches will never cure you.

Catarrh is annoying enough when it chokes up your nostrils and air passages, causing painful and difficult breathing and other discomforts. But the real danger comes when it reaches down into your lungs.

This is why you should at once realize the importance of the proper treatment, and lose no time experimenting with worthless remedies which touch only the surface. To be

rid of Catarrh, you must drive the disease germs out of your blood.

Splendid results have been reported from the use of S. S. S., which completely routs from your blood the Catarrh germs, for which it is a perfect antidote.

DICK DUNLAP SERVING WITH ARMY IN FRANCE

Young Man Well Known Here is With Ambulance Corps—Writes in Very Interesting Vein.

Richard Dunlap, a cousin of Miss Carrie Dunlap and other Morgan county people, is in the ambulance service in the American army in Paris. Letters from this young man, who has been abroad since June, have been published in the Danville, (Ky.) Advocate, and paragraphs from one of these letters are given below. They are written in a way which shows that the writer is a keen observer and that he is already quite familiar with places and conditions in France.

Neuilly-sur-Seine, le 16, Juillet, 1917.
Dear Father and Mother:
I will try to give you an idea of my life here, the conditions and the possibilities. In the first place I have some news which you no doubt know by this time. We have been taken over by the government and made a part of the National Red Cross. The ceremony to transfer will be elaborate and is to take place next Monday. General Pershing is to take part as are also Mrs. Vanderbilt, Mrs. Harry Payne Whitney and other prominent Americans interested in this hospital.

It has been pronounced by the French "Section Sanitaire" as the best and most efficient hospital in France. Not even the officers in charge here know yet what changes will take place in conditions here. We may be required to enlist for duration of the war, or there may be no change in the present enlistments until they expire. We may receive pay. We have orders to sit tight in the boat, not worry and await developments. We will know everything next week. If conditions are going to be altogether impossible, I think I can get in another branch of the Red Cross for six months or into Y. M. C. A. work with Emmett O'Neal. How-

ever, the chances are ten to one that I can stay here just as at present.

Routine of the Day
There are four sections of cars, 20 cars to a section, 2 men to a car, so there are about 160 ambulances or drivers. Most of them are from New England and New York, but there are a few from here and there over the West and South. I have found one Sigma Chi here from California. The sections are O, Buick cars, O-A Packard cars, O-B the "Foreign Legion" Pierce-Arrow, Packard, Fords, Garfords, Buick, Panhard and Renault cars, and American, French, Porto Rican and Portuguese, Belgian and Spanish drivers, then section O-C Panhard cars. I am on car No. 2, Squad A, section O-A. Every day one section is on active duty, the next one on reserve duty and the other two comparatively free. One day in five each man has a day of complete "repas". (All of this will probably be made more strict after next week). On this day we can go anywhere in the city and do not have to report at any roll calls. Each section has five squads of eight men each. One day in every eight each squad is on all day guard duty. Each man thus has eight hours of it. One time it will come in the day, the next at night. Breakfast is at 7, at 8:30 we have roll call and military drill by section. Our section director, Mr. Wharton, is a man about forty-five and a fine fellow. Under him are five corporals and five sergeants. The drill work is fine, it usually lasts about an hour after which we work on our cars if there is anything to be done and there usually is.

All engines in his squad are inspected while running each morning by every sergeant. The cars must be frequently washed, the brass polished and always kept carefully oiled. Once a week there is a section inspection and stretcher drill. I have been getting settled until now and do not have my first active duty of vacation until Wednesday. Things are rather quiet at the front and there is not a great deal to do. Some cars are stationed in the yard in front of the hospital, some in a big yard back of the building. All the Panhards are in the latter place. Lunch is from 12 to 1:30 in the afternoon unless we are on active or reserve duty we are pretty much free to our own wishes. Frequently however, there is an order for all the sections to remain here on reserve duty, all "repas" is cancelled etc. This happened Saturday, the 14, when a German air raid over Paris was expected, on account of the great celebration and parade. Needless to say it did not arrive, but nevertheless kept one man to each car here all day.

Food in Abundance
The food is fair only our good as can be expected. It is all well cooked and in great abundance. We never see sugar, milk or butter. Most of the meat is horse meat, "mule steaks" as we call them. For breakfast we have oat meal, no cream or sugar, an egg, coffee, black or already slightly sweetened and "creamed," and black bread. I have not seen a piece of white bread of any kind since I left New York. For lunch, soup, meat, bread, potatoes, carrots or beans, once in a while something else in the vegetable line and a peach or some cheese for dessert. Always there is the ever-present "vin rouge" red wine, abominable stuff which tastes like medicine. Once in a while for a change we go to a nice restaurant near by and get an omelette, bowl of fine chocolate, bread, butter and jelly for about 35 cents.

The convalescents, all French, sit about on the porches and in the yards, many of the poor fellows minus arms, legs and eyes, but all more or less cheerful even at that. They make little souvenirs, cigarette lighters, and sell them. Every afternoon the place is crowded with visitors. The doctors, orderlies and nurses are American, French, English and Canadian. The servants are all French so we have to talk French to get anything done. I do not find it at all hard to get about the city alone and am getting along fine with my French. Paris has a great subway system, a little more complicated than the N. Y. one but very efficient. Full, clear and it is perfectly easy to get about. They M. C. A. has a handsome chateau on Rue Montague about twenty minutes from here. Emmett O'Neal is there and I have seen him frequently. He is one of the head men in the Paris part of the work. About 21 Rue Raynouard in a great old chateau where Benjamin Franklin once lived is the headquarters of the Field Service. It is near the Eiffel Tower and the gardens go back nearly to the Seine. Here are dozens of Ford Field Ambulances just having come in or going out to the front.

Field Service Men Unpopular
The Field Service is not nearly as well managed as ours and the men in charge there are very unpopular. In fact, I think the two most unpopular men in Europe are the Kaiser and a Count Andrew the head of the Field Service. I would not advise any one to go into that for they stand a very good chance of being treated unfairly and put into the transport service which is just a part of the French army. The men in that are combatants, carry rifles and side arms, take the regular trench outfit including steel helmets and gas masks out with them. The Field Service Ambulance men are in much better condition, we in the Paris section get a chance to go to the field for two or three months if we want to.

I have been all down the Champs Elysees about the Arcade Iroquoise, Place de la Corcorde, Place de la Madeleine, the Opera, Tintilleries Gardens of the Luxembourg, Place de Vendôme

and many of the other "points of interest." We are close to the Bois de Boulogne and I have been through there frequently. I do not think the Louvre is open now but hope that it will be during my stay here. Several of us are planning an all day's trip to Versailles soon.

Yesterday we went to Saint Cloud to a double-header baseball game between the U. S. Regulars, or "Sam-mies" as they are beginning to be called, and the Canadians in one game and the American Ambulance and another Canadian team in the other. The diamond is in the middle of the old race course. The whole place is a great Canadian and French hospital and is the headquarters of the Canadians in Paris. The "Sam-mies" and the Ambulance won. Saw General Pershing here at the hospital for a few minutes late yesterday afternoon. Went Friday to the office of the Prefect of Police over on the "Ile de la Cité" and got my "Permis de Séjour" or permission of residence in Paris and will get my chauffeur's license soon. Paris, like all France, is literally swarming with soldiers. There are very few English, Canadian and American now owing to recent orders keeping them away from the city, but practically every young Frenchman is in uniform. There are also many Belgian and a few Russian soldiers. Saw some French Algerian and English East Indian troops yesterday. Aeroplanes fly overhead continually. They make a great whirling noise and are recognizable all the time by this.

No Doubt As To Outcome
The general opinion here is to be divided concerning the duration of the war. Some see an immediate end, others think it will last one year, possibly two. All agree in being positive however, that Germany is defeated. There is absolutely no doubt as to the final outcome. It is only now a question of how soon it can be accomplished. The soldiers and the people are sick and tired of it and welcome the entrance of the U. S. and the Russian offensive more than we could imagine in the States. Still hold firm to my opinion that it will not go through another winter.

Please tell everybody to write. I have not received a letter since I have been here and miss them terribly. Be sure and remind every one that it costs five cents to send a letter over. As I have said sugar is an unknown quantity here. Many of the fellows get saccharine from the states. If you could send a few little bottles of saccharine over it would come in handy.

WOMEN TO FORMULATE REGISTRATION PLANS

Meeting of Twentieth Congressional District Women to be Held at Peacock Inn This Morning—Afternoon Meeting at Public Library

A meeting of more than ordinary interest will be held in this city today at which the women of the Twentieth Congressional district will formulate plans for the registration of women in compliance with the request of the government thru the National Council of Defense.

The meeting will be held at Peacock Inn from 10 o'clock until noon. At noon a luncheon will be served. In the afternoon the meeting will be held at the public library from 2 until 4 o'clock. At the afternoon meeting an address will be given by one of the speakers who appeared on the program at the convention which was held in Springfield the past two days.

It is probable that at the session this afternoon the women will be selected who will act as registrars for the registration of women. Some time next week a meeting will be held at which instructions will be given to the registrars. The week of November 17 has been decided upon as the time for the registration of women in Morgan county.

One of the women interested in the work said last night that some were of the opinion that the women were doing this work on their own initiative. However, this is not true as it is being done at the request of the government in the defense movement. It is the purpose to find out what every woman can best do. This does not mean that she will be called upon to immediately do this work but to know where she can be found and what she can do in case of emergency.

The meeting this afternoon is open to all women. Those in charge say that all women are not only invited but urged to attend the afternoon session.

The following ladies have been in attendance at the two days session of the Woman's Committee Council of National Defense, Illinois Division: Dr. Josephine Milligan, Mrs. A. L. Adams, Miss Elson Barnes, Mrs. M. H. Havenhill, Miss Ella Trabue, Mrs. Carl E. Black, Mrs. David W. Reid, Miss Grace Carter and Miss Clara W. Brown.

GAVE TRACTOR DEMONSTRATION.
A demonstration of the Smith Form-A-Tractor was given on the T. H. Buckthorpe farm on the Morton road Friday afternoon under the supervision of the local agents, the Jacksonville Farm Supply Co. There was a large company of farmers present and they were very much interested in seeing a Ford car with the Form-A-Tractor attached pull a gang plow and thus do the work of four horses. When the Form-A-Tractor is attached the rear wheels of the Ford are removed, the process taking only a few minutes' time. The combined cost of the Ford car and the tractor attachment is not as much as the price of four good horses and the economy operation is greater.

J. W. SEEGAR BLIND MORE THAN FIFTY YEARS

Californian Writes War Story About Veteran Long Resident Here.

In the Decatur Review of a recent date appears a letter from Abram H. Corman, now of Los Angeles, in which he pays tribute to J. W. Seegar, who lost his eyesight in the Civil war. Mr. Seegar was for many years a resident of this county and his home was for some time on the Vandallia road, near Nichols park. Mr. Corman, who before locating in California, was a Decatur newspaper man, is also quite well known here. The Review's article is as follows:

In a neat little cottage, 815 East Decatur street, James Wesley Seegar is nearing his fifty-third year of total blindness, and the eightieth year of his life. In spite of his afflictions, however, Mr. Seegar is as cheerful as though he had the sight of both his eyes.

Mr. Seegar is a Civil war veteran, and although he has lived in Decatur the greater part of his life since the close of the war the account of his experiences in the war are not generally known.

Writes About Charge
Abram H. Corman, now of Los Angeles, Cal., a former newspaper editor and resident of Decatur also one of the founders of the Decatur G. A. R. post, has written giving a brief history of Mr. Seegar's work in the Civil war, especially the charge in which Mr. Seegar was blinded. His letter is in part as follows:

"Wesley Seegar was a member of Company I, 101st Illinois Volunteers, Infantry Third Brigade, 1st Division, 10th corps. It was during the Atlanta campaign, near the end of the war. We were in a charge at Resaca, May 15, 1864, when Wesley, just at my right, dropped with a yell that caused me to turn around. There he was with his face terribly distorted one eyeball hanging out on his cheek, and the other protruding from its socket. I could stop no longer than to say a brief goodbye, for I confidently expected never to see him again.

Wounded in Battle
"Ten days later, however, May 25, at New Hope church, near Dallas, Ga., I got mine, in the shape of a 'minnie ball' which put me out of the fight. I was sent back to Nashville, and when able to make the trip, I was sent home on a thirty day's furlough.

"When I arrived at Jacksonville, I found Wesley Seegar, minus an eye, but still cheerful and making the best of a bad bargain. As for myself I got rid of my troublesome bullet, likewise its accompanying bit of flannel, but it was too late for me to march through Georgia to the sea.

"In conclusion I would like to express my best regards to all of my old Decatur friends, especially to my comrades of 1861-1865 and those with whom I shared the privilege of establishing Post One of the Grand Army of the Republic.

"Abram Henry Corman."
Mr. Corman is located at Los Angeles, Cal., where he still takes an active interest in the G. A. R. activities.

CONFERENCE OF COUNTY SANITORIUM BOARDS

Members of Morgan County Board Met in Conference in Springfield—Six Counties Represented—Address by Dr. George T. Palmer.

William Batz, Dr. Grace Dewey and W. L. Turnbull members of the Morgan county Tuberculosis Sanatorium board were in Springfield yesterday where they attended a conference at the Leland Hotel. The meeting was called by W. D. Thurber executive secretary of the Illinois Tuberculosis Association for the seven counties that voted to erect sanatoriums at the November election in 1916.

Six of the counties were represented at the conference. They were Adams, Morgan, LaSalle, McLean, Livingston, Champaign. The conference was addressed by Dr. George T. Palmer of Springfield, president of the Illinois Tuberculosis association. Much of interest and value to the boards which will have to carry out the details of building the sanatoriums and selecting the sites were brought out by Dr. Palmer's address.

It developed that all of the boards in the seven counties are in about the same condition as to sites. LaSalle county reported that three tentative sites had been selected but no definite action had been taken. An informal discussion followed Dr. Palmer's address in which the members of the various boards exchanged ideas as to the kind of buildings and sites.

An exhibit has been prepared by the State Board of Health and the Illinois Tuberculosis association for the state fair. It was expected it would be ready Friday but it had not been completed. The Morgan county board expects to make another trip to Springfield during the state fair to inspect this exhibit.

See and Know for Yourself

"Oh—You Beauty"

That's what comes to your mind every time you go in the kitchen and see the Copper-Clad Range. It is an inspiration because the finest known example of the artificers' art in range making. It is a picture because so pleasing—a statue because ideal in proportions—a symphony because of the perfect performance.

See Why Copper-Clad Ranges Do Not Rust Out

A section of a range body is heated and there on the iron body is the sweat from the asbestos. You see just exactly what happens every time you build a fire in your range. You see why the sheet of copper is used and what it does and how it does it.

Save a Thousand Shovels of Coal Every Year.

You know how the many walls and air spaces of a thermos bottle hold the heat. You know that a house with a single wall is not as warm as the house with two walls and an air space. You know that storm windows, two windows with a space between, are much warmer than a single window even if it is as thick as the two windows.

The Copper-Clad Range has four walls and an air space. See what it means in fuel saving. See how the heat is wasted by radiation on the three-wall construction and how it is saved by the four-wall thermos construction.

Suppose that you save but one shovel of coal at each meal; in a year's time you would save over a thousand shovels of coal. Pay? Of course, it will pay; and you owe it to yourself to see these two great demonstrations and know for yourself what range lasts longest — is most economical—cooks best—looks best.

GEORGE MITCHELL HAD FOOT CRUSHED IN BALER

Man Injured While at Work on the Morrow Farm—W. F. M. S. Meets—Alexander Notes.

Alexander, Ill., Sept. 7.—George Mitchell, employed on the baler owned by Albert Rust had his foot badly crushed Friday afternoon. The baler was at work on the farm of W. E. Morrow, a short distance east of Alexander, when the horses which were hitched to the machine backed up in such a way as to catch Mr. Mitchell. Several of the bones in the foot were mashed and the injured man was taken to Dr. McMillan at New Berlin for treatment. The injury was very painful and it is probable that Mr. Mitchell will be laid up for several weeks on account of it.

J. P. Hermes and Steve Ritter of Alexander left Friday for Fargo, South Dakota, where they are interested in farm lands.

Mrs. Steve Ritter and son, Willie, have returned from Rochester, Minn., where they have been the past week. Mr. and Mrs. Philip Burst and family of near Alexander have moved to the farm of Ernest Heinl near Pisgah.

Mrs. Kate Mueller of Alexander is visiting friends at Pisgah. Misses Elizabeth and Mary, wife of Alexander, are visiting at the home of their sister, Mrs. J. W. Pouch of New Berlin.

Mrs. C. J. Beerup has returned from a visit with Mrs. M. E. Grgetleaf of Jacksonville.

The W. F. M. S. of the M. 12 church met at the home of Mrs. Ralph Miller Thursday afternoon with a good number in attendance. Mrs. G. W. Black was the leader. Mrs. Margaret Colwell had interces-

sions. Topic: "The Land and the Crescent." After the program a most enjoyable time was had in a social way. Dainty refreshments were served.

Mrs. C. H. Beerup expects to leave for Springfield to attend the state fair Saturday morning and will return to Alexander Monday.

MANY MEN ANXIOUS TO GO WITH NEXT COUNTY SQUAD

Chairman Weir Has Received Numerous Requests From Men Who Wish to Start for Camp Taylor, Sept. 19—Instructions from Adjutant General Awaited—Murrayville Boy Transferred from Montana.

Chairman Weir of the local exemption board was busy Friday preparing papers for the next forty eight men who are to go to Louisville from Morgan county on the nineteenth of this month. The local board has a waiting list of men who desire to go in the next squad. Many of these who have asked to be sent to the training camp on the 19th are men whose order-of-call numbers would regularly place them in the last squad to be called.

Chairman Weir has written to the adjutant general in order to ascertain whether or not it will be permissible or advisable to take these men out of their regular order number or place and send them before men next in line are called. Until word from the adjutant general relative to this question is received there will be no certainty as to the identity of the next forty eight men. While there are some in the next forty eight numbers of the Morgan county list who will wish to remain until the last squad is called for business or other reasons, it is fortunate for a great many that they are to be called in the second list and will receive their training before all of the non-commissioned appointments are allotted. There will be a number of these officers appointed to take care of the great number of troops and the boys in the next bunch to go will have a better chance to land these positions than will those who are called at the very last.

Clarence E. Cunningham of Murrayville, who registered at Pentwood, Montana, and was accepted for service, has received authority to be transferred to the jurisdiction of the local board and be mobilized with the quota from Morgan county. This will make the mobilization work more pleasant for Mr. Cunningham as he will train among many of his friends and acquaintances from this vicinity.

MEETING FRIDAY

Two Interesting Papers Presented—Mrs. Clarkson Named Delegate to State Convention.

The regular monthly meeting of the Christian Woman's Board of Missions was held at the Christian church Friday. Mrs. George Harney was the leader and had as her subject "The Future World of Latin America." Mrs. M. E. Powell also presented a paper on "Opportunities to give the Bible to Mexico." Both subjects were very well handled and the afternoon's program proved one of much interest and benefit.

Mrs. W. T. Clarkson has been appointed as a delegate from this city to attend the meetings of the state convention to be held at Taylorville next week. The program at the state meeting will probably last Monday, Tuesday, Wednesday and Thursday. Mrs. Clarkson will leave Sunday or Monday and will be in attendance at the meetings. On Wednesday quite a delegation of Jacksonville Christian folk are expected to go to Taylorville for the program that day. If the roads are in suitable condition the majority of the party will go by automobile. This is a special day of the convention and it is planned to have large delegations from many cities throughout the state at the Wednesday meeting.

TO CELEBRATE IMPORTANT ANNIVERSARIES IN 1918

One Hundredth Anniversary of State's Admission to Union and Centenary of Richard Yates to be Commemorated—History of Yates Family.

In many respects the year 1918 will be one filled with stirring and important events. In addition to it being the 100th anniversary of the state's admission to the union, it is also the centenary anniversary of Richard Yates, the great war governor of Illinois. So, when we celebrate the one, both events should be combined and thus make it a double celebration. In his day Richard Yates was one of the most popular, most able and stood without a peer as an orator. When the red tide of war was sweeping the nation like a mighty besom of destruction Richard Yates stood at the helm of the ship of state while the craft was plowing through the red billows of war and steered her safely into a peaceful prosperous harbor. Of all the illustrious war governors of that mighty conflict Richard Yates stood easily at the front as the most illustrious of all the grand galaxy of war executives. His name was a household word throughout the loyal north, and the idol of the more than 250,000 loyal sons he sent to the southland from Illinois to strike the bolt from treason's mailed hand. Men called to the colors by his matchless eloquence participated in all the campaigns of the slaveholders' rebellion. In the darkest hour when freedom's fire burned low this heroic figure stood shoulder to shoulder with the immortal Lincoln and gave him the great soldier, the silent man of destiny, a clerk in a leather store in Galena in antebellum days, and it was Richard Yates who started him on the high road to success and gave him fame and name to the nation and the ages. U. S. Grant was his name, and Richard Yates was his creator and high on the scroll of the fadeless glory will appear the names of Lincoln, Grant and Yates, and as the years slip into history the record of this illustrious trio will grow brighter and yet brighter as the searchlight of eternal truth is turned upon them. Yates was the soldiers' friend, the people's friend and the true-hearted friend of humanity in all that the term implies. This generation knows little of his history but the remnant of the mighty phalanx he called to the colors in the days of the tragic sixties recall his glorious record and point with pride to the fact that they heard him sound the tocsin and responded to the number of 256,000 as brave men as ever marched under the tri-colors of American liberty, thousands of whom died that others might rest in peace and security beneath the sacred folds of Old Glory.

Was Eloquent Orator
Richard Yates was born January 18, 1818, at Warsaw, Gallatin county, Ky., and came to this state in 1831. For a short time he lived at Springfield, and later at Island Grove. He graduated from Illinois College with first honors in 1837. He took the law as a profession and his eloquence as an orator soon attracted the attention of the people who took him up and elected him to the legislature where he served several terms. In 1850 he was elected to Congress as a Whig in a district that extended from Sangamon county on the south to LaSalle county on the north. He was re-elected and took strong ground against the extension of human slavery. He was elected governor in 1860, and for four years steered the old ship of state through the years of civil strife that followed the inauguration of Abraham Lincoln in 1861. He also served as U. S. senator from 1865 to 1871. Died November 27, 1873.

So, in view of all this, the people of Morgan county should get ready to celebrate the three important events—the state's 100th anniversary, the 100th anniversary of Yates' birth and the dedication of the monument to commemorate the heroic sacrifices of those whom he called to the colors in the days that tried men's souls, and whose valor helped to give us a united nation as it exists at this time—a time of peril and anxiety—a nation made strong and clean and heroic by the blood of those who fell in freedom's holy cause a little more than a half century ago.

In connection with this bit of history of the Yates family it might be of interest to state that another Richard Yates played an important part in the political history of Illinois in later years. A lot of us remember the whirlwind campaign of 1900 when the son of the old war governor landed the gubernatorial prize, defeating Samuel Alschuler who ran on the Democratic ticket. Just forty years to a day and an hour the young man occupied the chair once so ably filled by his father. At the time the elder Yates was governor the present Sangamon county court house was the state house and the present mammoth building had not been dreamed of. Many of the people now living can remember when the present site was a peach orchard in the suburbs of the capital city, the most prominent building in that section being the old Edwards home near the corner of Second and Charles street, where Abraham Lincoln was married. It is a large, old fashioned brick and can be seen easily from the south end of the state house.

The Old Yates Home
The old Yates home in this city long before and several years after the civil war was the present Catholic hospital and where the parsonage now stands was the home of the Ewings, there being a vacant lot on which now stands the Church of Our Savior and on that vacant lot William Yates, the eldest son of the war governor, was killed by lightning and the writer of this article was the first to reach him after the tragedy. All this happened a long time ago but I recall the event as plainly as if it happened yesterday. As I re-

Mrs. F. C. Coe left Friday afternoon for Iowa City, Iowa, called there by the death of her brother-in-law, Alfred E. Meardorn. The deceased was a well known resident of Iowa City.

CHILDREN'S AID SOCIETY DOING GOOD WORK

Rev. C. C. Deyver, district worker for the Illinois Children's Home and Aid society, is now in the city for his annual visit. This society is well known locally, having in the past years provided homes for 198 destitute children from Morgan county. A number of Jacksonville people have been regular contributors toward the expense of the society, and it is hoped at this time to interest many others and to secure a substantial fund to aid in the work undertaken. The society some time since took over the White Hall Orphan's home and the work of the two organizations has been combined. The increase in the cost of all necessities makes it the more imperative that the contributions be generous.

The fact that in the year 1916 more than 27,000 days of care were provided gives some indication of what the institution is doing. The children aided are of course largely of the lower classes, and if left in their former surroundings would have but little chance in life, but the society gives them the opportunity to become good citizens and a credit instead of a menace to the state.

RAIN WAS IRREGULAR.

The rain which fell here so copiously Thursday night and Friday morning was very irregular. Visitors yesterday from Naples, Murrayville, Alexander and various other points report little rain in their neighborhoods and some none at all.

SIDEWALK BIDS OPENED AT COUNCIL SESSION

Action Deferred on Bids—Law Requires Separate Contract With Contractor for Each Street—Figures Submitted.

At a special session of the city council held Friday bids were opened for the construction of sidewalks where the owners have failed to comply with ordinances heretofore passed.

Action was deferred on the bids, the city clerk being instructed to get from all contractors a statement of all property owners with whom they have contracts for putting down walks. In the letting of contracts under the law a separate contract must be signed with the contractor for each street. Adjournment was taken after the opening of bids and instructions to the clerk until Monday.

The contractors who submitted bids and their figures are given herewith:

Otis Hoffman 14½ cents per square foot.
J. W. Baptist 15 cents per square foot.
Simeon Fernandes & Son 11½ cents per square foot.

Try Knoles on fall clothing and you will be happy.

Mrs. M. E. Lavton has returned to the home of her daughter, Mrs. W. H. McGhee, in Murrayville after a brief sojourn in the city.

Catarhal Deafness Cannot be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure catarhal deafness, and that is by a constitutional remedy. Catarhal Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or impaired hearing, and when it is entirely closed, deafness is the result. Unless the inflammation can be reduced and this tube restored to its normal condition, hearing will be destroyed forever. Many cases of deafness are caused by catarh, which is an inflamed condition of the mucous surfaces. Hall's Catarrh Medicine acts through the blood on the mucous surfaces of the system.

We will give One Hundred Dollars for any case of Catarhal Deafness that cannot be cured by Hall's Catarrh Medicine. Circulars free. All Druggists, 75c.

WHISKEY MAKING TO STOP.

Washington, D. C., Sept. 7.—Whiskey making and the distillation of spirits in general will be prohibited in the United States after tomorrow. Under orders promulgated by Herbert C. Hoover, the food administrator, the distillation of spirits from grapes and apples, the refuse of these fruits, sour wines and molasses and such additional products as can be used for "man and beast" will be unlawful. Eleven o'clock tomorrow night is the hour set for clamping down the lid. At that hour the long hard-fought battle against the manufacture of whiskey will have been won, and for the period of the war at least distillers of spirits will be removed from the list of consumers of the nation's food supply.

Miss Josephine Rea has returned to her home in Chicago after a pleasant visit with her aunt Mrs. Thomas Maloney of Hardin avenue.

**RED CROSS TO PUBLISH MONTHLY STATEMENT**

Covering Finances and Administration of War Council—Decrease in Number of Paid Employees During Past Month.

Washington, D. C., Sept. 7, 1917.—Henry P. Davison, Chairman of the Red Cross War Council, authorizes the following:

It is the plan of the War Council of the Red Cross to publish monthly a statement concerning its finance and administration, and every detail which may be found to be of interest to the public will be made known. The following facts concerning salaries paid by the Red Cross may prove of interest to the public.

One year ago, on a peace basis, with only about 200 Chapters and a little over 200,000 members, with annual funds of only a few hundred thousand dollars, the Red Cross employed at its headquarters in Washington 75 paid officers and employees of whom 39 received salaries of from \$2,000 to \$7,500.

At the present time, with the Red Cross on a war footing, with 2,600 Chapters to administer, 3,621,011 members and a war fund of \$1,000,000,000 pledged, Red Cross National Headquarters employs 624 paid officers and employees, of whom 46 are paid salaries of \$2,000 a year or more.

In other words, since war was declared, 559 paid officers and employees have been added to the Red Cross Headquarters staff, and of that number 17 receive salaries of from \$2,000 to \$6,000 a year. The highest salary added since war was declared is \$6,000. The highest paid official in the National organization received \$7,500, and he was on the staff on a peace basis.

Of those receiving less than \$2,000 a year, 49 now receive salaries of over a hundred dollars a month. There are 38 clerks being paid one hundred dollars, while clerks and messengers receiving less than \$100, number 491.

In addition to paid officers and employees in National Headquarters, the number of full-time volunteers now contributing their services to the Red Cross is practically 77. Practically all the important administrative positions created since war was declared are filled by volunteers.

During the last month, altho the number of Red Cross members had increased from 2,547,412 to 3,621,011, and the administrative work at National Headquarters has increased substantially, the number of paid employees has decreased from 707 to 624. This is partly to be accounted for by the decentralization of the work among thirteen territorial divisions under a new plan of organization adopted by the War Council.

RETIRED ARMY OFFICER RE-CALLED TO SERVICE

Men Beyond Age Limit Made Happy by Receipt of Orders to Take the Places of Younger Officers—Government Faces New Problem.

Washington, D. C., Sept. 7.—Many prominent army officers who were obliged to give up active duty within the past few years because of the fact that they had arrived at the age limit for active service, have been made happy recently by the receipt of orders calling them from retirement to take the places of younger officers who are going to the front, or to assume the duties of new posts created by the war. Recently the President has exercised his power to recall to active service many of the retired officers, varying in rank from major-general down to captain. Several of these officers of highest grade have been given command of the different departments into which the country is divided for military purposes. Others have been assigned to important bureau positions, while still others have been sent to West Point and to various other schools of instruction to fill vacancies, present or prospective, created by the sending of the forces abroad. Under the law, a retired officer may be assigned to any duties except those of a line officer. This, of course, will prevent any of the retired officers recalled to active service from being sent to Europe.

It is virtually the first time in the history of the military establishment that any considerable number of retired officers have been recalled to active service. In this connection there has arisen a new problem that the Government has never before been called upon to face. This problem has to do with that part of the law and military regulations which prohibits any advance in rank or pay for retired officers recalled to active service. As a result of this law the retired officer, when the services for which he has been recalled are concluded or a necessity for such services no longer exists, will retire again to private life with the same rank and pay he entered on the occasion of his first retirement, irrespective of how long the war may last or how valuable may be the services he has rendered his country during its continuance.

The problem is already a subject of live discussion at the clubs and other places where army men congregate. While the retired officers themselves have made no formal protest, nor are they likely to do so, it is not unlikely that the matter will be called to the official attention of Congress if the war lasts very long.

WOODSON C. W. B. M. SOCIETY MEETS

Regular Monthly Session Held at the Home of Mrs. John Shirley Thursday—Christian Ladies' Aid to Serve Burgoo Soup—Other Woodson News Notes.

Woodson, Sept. 7.—Taylor and Henry of the Woodson Garage sold two Ford cars last week.

**Have You a Cold Kitchen?**

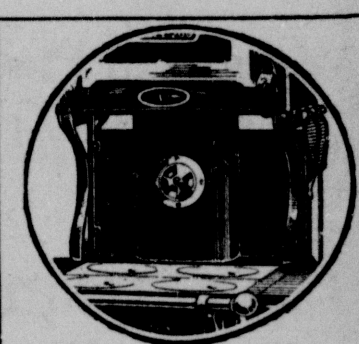

On the cold winter mornings is your kitchen chilly and uncomfortable? If it is, Mrs. Housewife, you do not know the meaning of real kitchen comfort. At least half your time is spent in the kitchen and you owe it to your self to make your work there as agreeable as possible. Your kitchen work will be far from pleasant if you are using an old style imperfect heating low over range.

A Leonard Hi-Oven Range

(Burns Coal or Wood—May be equipped for Gas) Means Kitchen Comfort for You

**See the Large Ash Pan**

This shows the large ash pan of the Model 200 Leonard Hi-Oven Range. No shoveling of ashes. Notice the high sanitary base. Easy to clean under.

**Why the Oven Bakes Perfectly**

Notice the large single pipe. This carries the heat directly into lower oven flue where it is evenly distributed by the baffle plate. No heat wasted.

A Model 200 Leonard Hi-Oven Range is designed especially as a combination heating stove and cooking range. While you are doing your cooking and baking, the kitchen is made warm and cozy. Neither do you have any of those disagreeable waits on cold mornings for the range to heat. In 10 minutes your kitchen will be comfortably warm. Then too there are no fires to build as the range easily holds five over night.

The elevated oven is a wonderful convenience. No more stooping, and the oven is a perfect baker. There are many other features that will interest you. Come in and let us show you this wonderful stove.

OLD RESIDENT VISITING HERE.
Edward Cullen of Chicago is
spending a few days with relatives
and friends in the city. For many
years Mr. Cullen was in the employ
of J. Capps & Sons as shipping
clerk. He left here 25 years ago for
Chicago where he has since resided.
For a number of years Mr. Cullen
engaged in business in Chicago but
retired several years ago. Mr. Cul-
len has greatly enjoyed visiting the
Capps factory while here tho he
finds but few employees who were
there when he worked for the firm.

SUED FOR INDEBTEDNESS.
The Ward Collection agency sued
Arthur Vaghts for indebtedness in
Justice Henderson's court yesterday.
Judgment was secured and a motor-
cycle that was standing in front of
the Vaghts' home on East North
street was taken. It appears that the
machine did not belong to Vaghts.
Friday he went before Justice Dyer
and scheduled his assets and made a
demand for the motorcycle. It is not
known what the final outcome of
the affair will be.

FROM THE BIG LEAGUE
DIARY FOR AUGUST

Aug. 1—White Sox blanked Red
Sox 4 to 2 and regained lead in
American league.
Aug. 2—Pitcher Walter Johnson, of
the Washington team, celebrated
the tenth anniversary of his en-
trance into the American league.
Sherwood Magee was released by
Boston Braves to Cincinnati Reds.

Aug. 4—Pitcher Boland of Detroit
scored his tenth straight victory
over New York Yankees, shutting
them out 3 to 0.
Aug. 6—Cleveland scored one hit
off George Foster, but managed
to beat the Red Sox 2 to 0.

Aug. 7—Athletics pounded White
Sox pitchers for 19 hits and defeat-
ed the league leaders 8 to 1.
Aug. 8—Catcher Schang's home run
in the 10th inning gave the Ath-
letics a 6 to 5 win over the
Browns.

Aug. 9—Pittsburgh Pirates knocked
Alexander out of the box and de-
feated the Phillies 5 to 1.
Aug. 10—Armando Marsans, of the
Yankees, broke his right leg in a
game between New York and
Cleveland. Buck Weaver, the
White Sox third baseman, suf-
fered a broken finger in a game
against Washington. Cleveland
defeated the New York Yankees
8 to 7 in 14 innings.

Aug. 11—Red Sox and Detroit played
double header before 29,052 fans,
the biggest crowd at the home of
the Sox since 1915; Champions
won the first game 7 to 2 and lost
the second 5 to 0.

Aug. 12—Twenty thousand Cleve-
landers saw the White Sox defeat
the Indians 4 to 3 in 13 innings.
Aug. 13—St. Louis Cardinals de-
feated Cincinnati in the 12th in-
ning by a score of 6 to 5.

Aug. 14—Manager Jones of the
Browns announced that Eddie
Plank the veteran pitcher had re-
tired permanently from baseball.
Plank pitched his last game
in Washington, August 6, when
Walter Johnson defeated him 1
to 0 in 11 innings. Giants made
six home runs in double header
against Brooklyn, the Giants win-
ning first game 5 to 4 and Brook-
lyn taking the second 3 to 1.

Aug. 15—Brooklyn released Chief
Meyers and Mike Morrey, Myers
signing with the Boston Braves.
White Sox signed Bobby Byrne,
former Pittsburgh-Philadelphia
infielder. Tom Hughes of the
Braves pitched his first game of
the year and defeated the Phillies
3 to 0.

Aug. 16—Giants defeated Cardinals
5 to 3, Pitcher Sallee registering
his tenth straight victory.
Aug. 17—After holding the league
lead for 16 days, the White Sox
were ousted by the Red Sox.
Aug. 18—Red Sox dropped to sec-
ond place, the White Sox regain-
ing the lead. Jim Thorpe, the
noted Indian athlete, was sold
back to the Giants by Cincinnati.
Pitchers Hamilton and Park and
catcher Hartley released by the
St. Louis Browns to the Columbus
American association team.

BUTT HALE'S RACING
FEATURES MEET
Lowers His Race Record Half a Sec-
ond Tho He Loses the Special Pac-
ing Race to Russell Boy.

Hartford, Conn., Sept. 7.—The
performance of Butt Hale, brown
geldin in Tommy Murphy's stable,
was the feature of the final day's
meeting of the Grand Circuit at
Charter Oak Park today, for, tho he
lost the special pacing race to Russell
Boy, he won the second heat in
2:02 1/4, lowering his race record half
a second.

The other three races on the day's
program were over the half-mile
track and were comparatively tame
performances.
Russell Boy was an easy winner of
the first heat of the special pace as
Butt Hale broke in the drive home.
In the second heat, Tommy Murphy
drove Butt Hale right behind Geer's
sulky to the three-quarter turn
and in the final drive the pair fought
it out neck and neck, Butt Hale for-
ing ahead by a neck. They paced the
last quarter in 29 1/4 seconds and at
the last half mile in 1:00 1/4. Rus-
sell Boy took a two length lead at
the quarter pole in the third heat and
won by a length.

OPENING DAY OF ILLINOIS FAIR.
Springfield, Ill., Sept. 7.—The an-
nual Illinois State Fair was inform-
ally opened today and will be contin-
ued thru the coming week. No set
program will be carried out until
Monday, and today's visitors occupi-
ed their time inspecting the exhibits
in the big buildings and among the
live stock in the barns and pavilions.
Notwithstanding the recent destruc-
tion by fire of one of the largest of
the exhibition buildings, together
with interference in various plans
caused by the war, the management
predicts that the fair this year will
be one of the most successful ever
held in this State.

E.H. Davis of the International
Harvester Co., of Springfield was
looking after the interests of his
company in the city yesterday.
Cleveland defeated Washington 2
to 1 and won his 20th game of
the season.
Aug. 27—St. Louis Browns declared
winners of the competitive mili-
tary drill of the American league.

RAIN HALTS RACE
Chicago, Sept. 7.—The challenge
between Ralph Depalma and Lewis
Chevrolet, scheduled to be decided at
the speedway tomorrow, were called
off owing to rain. Depalma left for
Washington to enter the aviation
service as an inspector of motors.

TO FURNISH TROOPS
WITH SCORES
Chicago, Sept. 7.—American troops
training under Major General Persh-
ing in France are to receive a de-
tailed cable description of the
world's series games, President John-
son. These stories of probably
1,000 words will be cabled daily at
the conclusion of the games. The
National Baseball Commission will
stand the expense.

REDS DOWN PARKERSBURG
Parkersburg, W. Va., Sept. 7.—The
local team was defeated 5 to 0 by the
Cincinnati National League club in
an exhibition game here today.

September Report Forecasts
Record Crop

Corn Needs Only a Few Weeks Free-
dom From Frost to Mature Into
Largest Production Ever Known
in the History of the Nation.

Washington, Sept. 7.—Corn, the
country's greatest crop, needs only
a few weeks freedom from frost to
mature into the largest production
ever known in the history of the na-
tion. The government's September
crop report today forecasts a pro-
duction of 3,248,000,000 bushels,
which is 124,000,000 bushels more
than produced in the record year,
1912.

Improve in Two States

Corn prospects improved to the
extent of 53,000,000 bushels as a re-
sult of good weather during August,
the Kansas crop showing improve-
ment to the extent of almost 40,000,
000 bushels, and Missouri 23,000,
000 bushels. Declines were record-
ed in other states.

Spring wheat yields are turning
out better than expected and the
September forecast showed an in-
crease of 14,000,000 bushels over
the production forecast in August
with a total yield of 668,000,000
bushels of wheat this year was an-
nounced. That is 28,000,000 bush-
els more than last year's harvest,
but 138,000,000 bushels less than
the average of the crops for the five
years 1911-15.

Forecast Large Oat Crop

Besides the record crop of corn
larger production than ever before
will be harvested in oats with 1,
533,000 bushels, rye with 56,000,000
bushels, white potatoes with 462,
000,000 bushels, sweet potatoes with
88,200,000 bushels, tobacco with 1,
221,000,000 pounds, and hay with
91,700,000 tons.

Oats prospects increased 79,000,
000 bushels during August but to-
bacco lost 49,000,000 pounds.

Weather Favors Crops

Better weather favored crops gen-
erally during August and as a result
larger yields were forecast today by
the Department of Agriculture in its
estimates based on conditions exist-
ing September 1.

The forecast of each crop's final
production, which may be larger or
smaller than indicated, as conditions
before harvest are better or worse;
with the final production of last
year (stated in millions of bushels,
i. e., 000,000's omitted) follow:

Crop	Sept.	1916
Winter Wheat	487	482
Spring wheat	668	158
All wheat	668	640
Corn	3,248	2,583
Oats	1,533	1,258
Barley	204	181
Rye	56	47.4
Buckwheat	20.2	11.8
White potatoes	462	285
Sweet potatoes	88.2	71
Tobacco, lbs.	1,221	1,151
Flax	11	15.5
Rice	32.2	40.7
Hay, all, tons	91.7	100
Sugar beets, tons	7.94	6.23
Apples, total	177	202
Peaches	42.6	36.9
Kaffirs	103	50.3

Production figures for winter
wheat, rye and hay are preliminary
estimates.

Comparison of the September with
the August production forecast indi-
cates the changes in prospects caused
by weather and other conditions
during the month of August.

Great Corn Crop Developing

The great corn crop, which is a
record-breaker, was developing in a
fair to excellent manner in the main
corn growing states when the Sep-
tember canvass was made by Depart-
ment of Agriculture agents and cor-
respondents. In Kansas, where the
August report indicated the produc-
tion would be cut about in half by
the severe weather conditions of
July, rain had brought rapid recovery
and there were prospects of a
good yield in the eastern and south-
central parts of the state. A better
crop in Oklahoma than was antici-
pated will result from late improve-
ments. With favorable weather in
Missouri during the next fortnight
there will be a large yield in that
state, while in Iowa the crop was
making satisfactory growth consid-
ering the cool weather. The crop is
late in Iowa and in other central
and northern districts and weather
somewhat better than normal will be
needed to carry it past the frost
danger in many sections. In the
south the crop is maturing and har-
vesting has begun.

Harvesting of winter wheat has
been completed and threshing is con-
tinuing in the northwest and upper
Rocky Mountain region. Ploughing
for the next winter wheat crop was
in progress in most central and north-
western states, except where delayed by
dry weather. Some seeding of winter
wheat and rye had begun.

Yields and quality of spring wheat
were better than was anticipated in
many sections of the north. Harvest-
ing of spring wheat, oats, and barley
mostly was completed and threshing
was making excellent progress. Bar-
ley was yielding well where irrigated
in Pacific coast states. Drought-
damaged flax considerably in North
Dakota, and northwestern Minnesota
while the crop is irregular in South
Dakota where harvesting had begun.
White potatoes showed favorable
development in central and northern
sections. Rain was needed in some
districts, and there was some frost
damage in the extreme north. Sweet
potatoes developed well in most
southern states and were being har-
vested in the southeastern states.

Rice harvesting was in progress in
the lower Mississippi valley, with the
crop generally light in Texas. It is
in good condition in Arkansas and
excellent in California.

Buckwheat is somewhat late, but is
bearing and generally promising.
Sugar beets were growing well in
the Rocky Mountain region and on
the Pacific coast, with an excellent
outlook in California.

Weather for tobacco was favorable

for ripening and harvesting. Cutting
and curing was in progress in many
districts. It was too dry and some-
what cool for best development in
Wisconsin.

and 1.31 the 1911-15 average.
Sugar beets: Condition 91.7 per
cent of a normal, compared with 99.3
last month, 88.7 last year and 89.4
the 10-year average. Indicated yield
10.82 tons per acre, compared with
9.36 last year and 10.86 the 1911-15
average.

**ARENZVILLE HAS
HISTORIC BUILDING**

Was Property of the Late John
Pfeil, Mechanic and Inventor—
Evolution of Plow Is Interesting
Study.

Situated in Arenzville is a build-
ing which truly has a history. It
belonged to the late John Pfeil, a
mechanic and inventor of no ordi-
nary ability but who, like many others
of his kind, lacked capital and busi-
ness sagacity to profit by his genius.
Mr. Pfeil had long been impressed
with the drudgery of farming and
set his wits to work to see if he
couldn't devise some plan or machine
which would lighten the labor of
plowing. As horses are strong, he
thought it would be well to let them
do the work and the man guide them
and the result was the construction
of the first wheel riding plow made
in the world. This honor is accorded
him by writers who know the
subject. Mr. Pfeil made an imple-
ment that would work but it failed
to produce the financial results de-
sired of it and his invention brought
him small results. Many times this
has been the case. The late Dr. G.
V. Black, one of the three greatest
dentists of the world, invented the
dental engine which so revolutionized
the work of his profession yet
others reaped the financial results
tho it has been well said by a re-
lative of the great man that the pro-
fession and the world in general
have profited by that failure as he
was led to turn his attention to
studies along the line of his profes-
sion that resulted in the preparation
of what might be called a dental en-
cyclopedia which is a classic on both
sides of the ocean.

Ancient Method of Plowing.

The evolution of the plow is an
interesting study. In oriental lands
scarcely any progress has been made
except where other nations have
gone in and forced improvements.
The dweller in the land of Palestine
uses the same crooked stick that
Abraham used and in Egypt the pri-
mitive implement is still in evidence.
There is a fastening at the end of
the long, awkward tongue and that
is connected with a stick that is tied
in front of the horns of the oxen if
they are used; or to a primitive har-
ness if horses, mules, donkeys or
camels are employed. In Mexico the
greater part of the people use the
same ungainly wooden implement
that was brought over by Cortez in
1519. Some years ago an enterpris-
ing man from the states took down
some modern plows and the natives
piled them up at one side and went
on with the wooden implement that
had been used from time immem-
orial.

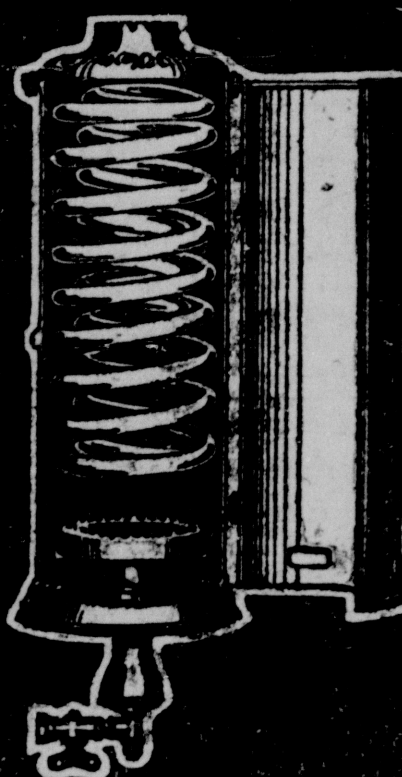

When the writer worked on a
farm in northwestern Ohio before
the war a great many people used
cast iron plows and they would scour
in the clay soil of that locality the
more enterprising farmers used
steel implements. The cast iron af-
fairs were much cheaper and instead
of being sharpened which was im-
practicable, a new point was put on.
Sod was cut with a point on which
an upright piece was cast and an-
swered a fairly good purpose but
would be useless in the porous soil
of Illinois prairies. The cast iron
implements were hard on man and
beast but poverty compels the use
of many things not wholly desirable.
